#NCSconnects Summer Camp Activity

Activity: Woven Weave Hanging

Category: Arts and Crafts

Suggested Grade Level: Grades 7-12

Description: An easy DIY woven wall hanging you can hang in your room or home.

Supplies:
- 2-3 different colors of yarn
- Plastic yarn needle
- Scissors
- Popsicle stick (or regular branch or stick)
- Duct tape

Instructions:
1. Measure out 10 pieces of yarn at 25 inches per piece. Loop each piece around the popsicle stick as pictured.
2. To help with the process, I recommend duct taping your popsicle stick and the end of your yarn to a sturdy surface.
3. Cut a piece of yarn about 50 inches long. Thread it through the plastic needle and then tie a knot at the top of the needle.

4. Starting with the first thread, slide the needle underneath and then up over the next thread, and then back under the third thread, and so on. Use this under-over pattern until you get to the last thread.

5. When you get to the end of your first row, pull it through all the way, leaving about a 3” tail.

6. For your next row, go back the other way by doing the opposite over-under pattern as you did for the first row.

7. When you are done with your first color yarn, or if you decide you want to switch colors, simply end it by knotting it to the other thread.

8. When you get to the end, cut off the yarn that you are working with and tie it in a knot to the other thread.

9. Technically, you are now done with your weaving, but if you want to embellish with pom-poms and beads, go ahead! I made little tassels, as seen below.
