#NCSconnects Virtual Activity

**Activity:** Worldly Monument

**Category:** Culture, Arts & Crafts

**Suggested Grade Level:** Grades 1-6

**Description:** Create your own monuments!

**Supplies:**
- Printouts of different worldly monuments (Washington Monument, Statue of Liberty, Lincoln Memorial, Mount Rushmore, Eiffel Tower, etc.)
- Play-Doh
- Building blocks (Legos, Jenga blocks, etc.)
- Crayons, markers, pencils
- Construction paper
- Straws

**Instructions:** Choose a monument and either build it (with Play-Doh or blocks) or draw it using crayons, markers, and pencils.

**Adaptations:**
To simplify this activity, participants can create and draw their own original monument or color in a picture of a world monument.

To make this activity more challenging, participants can draw out their original monument first and create a name for it. Next, build it with Play-Doh or building blocks. You may use plastic straws, toothpicks, or popsicle sticks to make it look more realistic. Also, you can write down facts about several monuments and have participants draw a fact and guess which monument it is about.
