We Want to Recognize YOU, for Being a Part of Something Big!

Teaching staff and family child care providers are a key component of a strong early childhood care and education system. It is important for educators to be supported and recognized as one of the most important elements to a high-quality experience for young learners. In Virginia, the RecognizeB5 program is a strategy for supporting, retaining, and rewarding talented early educators.

RecognizeB5 is a teacher recognition program that is available for educators working at least 30 hours a week directly with children in child care centers or family child care homes that participate as a child care subsidy vendor AND are in Virginia Quality Birth to Five (VQB5). Educators who meet these requirements may be eligible to receive a financial incentive up to $2,000!

How can you participate? To find out if your program is already in VQB5 or eligible to join, contact Fairfax County Office for Children at NCSOFCVQB5@fairfaxcounty.gov.

Educators in participating programs will need to register in the state database LinkB5 by September 16, 2022, to be eligible for the teacher recognition program.
