

Birds in Villa Lee Park

By: Nicholas H

Birds in Villa Lee Park are so relaxing to listen to when you walk by and/or go in Villa Lee Park.

Everytime you walk by the trees in Villa Lee Park, if you are lucky, you might see like 11-30 birds together on one tree.

However, if you get too close to the birds, they will all fly away.

Sometimes you can see them fly into the neighborhood, Villa Lee, and eat off berry trees for food.

You can feel the air shake, and breathe in the fresh air too.

So you better come to **the park** if you want to see the birds.

The End
