### Fairfax Nature

Parks are what connect us to our planet,  
Our own Earth that is covered in dirt and granite.  
This world that we can't seem to sustain,  
But with your park's help you can repair Earth's domain.

You could volunteer to pick up litter,  
Or care for a damaged critter.  
You could start a garden in your yard,  
Or donate money to forests that are charred.

Fairfax parks in all communities  
Have endless chances and opportunities.  
So much to try and so much to do,  
And it's here in Fairfax waiting for you.
