

# Do you want to help our parks but cannot work outdoors?

Sometimes, it is not always possible for us to do volunteer work, either because of time or physical limitations.

If you are in this situation but want to help our parks, consider a donation.

Donations support our volunteers get rid of invasive plants by:

- Hiring interns to support volunteers with invasive plant removal.
- Purchasing tools, native plants, and native seed mixtures.
- Contracting invasive plant herbicide treatment when volunteers need extra help.
