There is an “uneven opportunity landscape” in Fairfax County

- Reports from the Northern Virginia Health Foundation, PolicyLink, and Urban Institute and our own analysis document variances in opportunity and vulnerability within Fairfax County and across the Northern Virginia and Metropolitan Washington regions.

- The most effective solutions must be place-based and system-focused and address the spatial inequities that constrain opportunity and ensure equitable access to services and resources that promote economic mobility.

KEY CONCEPTS FOR PROMOTING THE SUCCESS OF ALL NEIGHBORHOODS & POPULATIONS IN FAIRFAX COUNTY
The **Countywide Strategic Plan** lays out a community-based vision for the next 10 to 20 years featuring strategies and metrics to advance that vision over the next 3 to 5 years.

Applying an Equity Lens: One Fairfax in Practice

- **The Proposal:** What is the policy, program, practice or decision under consideration?
- **Desired Results:** What are the outcomes we want to achieve? What are the community-level conditions we aim to impact?
- **Assumptions:** What are our beliefs and ideas about the issue, situation, and people involved? How can we counter implicit bias?
- **Analysis of Data:** What data do we have? What data do we need? What does it tell us?
- **Community Engagement:** How have the people affected by the proposal been engaged? Are there opportunities to expand engagement?
- **Strategies for Equity:** Who will benefit from or be burdened by this action? What strategies will address vulnerability or build opportunity? How can we mitigate unintended consequences?
- **Implementation:** Is the plan feasible? Is it adequately resourced? How can we think and act creatively to make “it” happen?
- **Contextual Factors:** What factors might influence the proposal? What factors might the proposal influence? What factors are in and/or out of our control?
- **Accountability:** How will impacts be documented and evaluated? Are anticipated outcomes being achieved? How can we course correct?

Considerations on Addressing Inequity through Land Use Policy...

Habitat for Humanity Cost of Home Policy Platform –
“Advocates and policymakers must acknowledge and address the well-documented historic patterns of racial discrimination in housing and land use policies — at all levels of government — that still impact the makeup and opportunities of our communities.”

Andre Perry, Senior Fellow, Metropolitan Policy Program, Brookings Institution –
“Nothing grows without investment.”

You can’t solve a problem without understanding what’s at the root of it.
