PART 5 6-500 PTC PLANNED TYSONS CORNER URBAN DISTRICT

6-501 Purpose and Intent

The PTC District is established for the Tysons Corner Urban Center as defined in the adopted comprehensive plan to implement the mix of uses, densities and intensities under the redevelopment option set forth in the adopted comprehensive plan. The PTC District regulations are designed to provide the necessary flexibility to transform the designated Tysons Corner Urban Center area from a suburban office park and activity center into an urban, mixed-use, transit, bicycle and pedestrian oriented community to promote high standards in urban design, layout and construction and to otherwise implement the stated purpose and intent of this Ordinance. To create mixed-use downtowns near mass transit, higher development intensities are to occur within approximately one half (½) mile of the four Metrorail Station entrances, identified as Transit Oriented Development (TOD) Districts in the adopted comprehensive plan. The remaining areas, the Non-Transit Oriented Development (Non-TOD) Districts, are to be developed into lively urban neighborhoods that include an appropriate mix of uses, densities and intensities that are compatible to adjacent communities. In both TOD and Non-TOD Districts, development should be designed in an integrated manner that will enhance the urban character. Smaller, freestanding structures are generally discouraged and shall only be considered when such use is designed in an urban form that creates or enhances an appropriate street edge and implements the stated purpose and intent of the district.

To be granted this zoning district, the applicant shall demonstrate the development furthers the vision of the Tysons Corner Urban Center, as identified in the adopted comprehensive plan, by meeting, at a minimum, the following objectives.

1. Contribute to a tiered intensity of development having the highest intensities located closest to the transit stations and provide the mix of residential, office and commercial uses necessary to achieve a vibrant, urban environment.
2. Contribute to the network of open space and urban parks, to include stream valley parks, pocket parks, common greens, civic plazas and athletic fields for the workers and residents of Tysons.
3. Promote environmental stewardship by implementing green building design; efficient, renewable and sustainable energy practices; incorporating low impact development strategies, such as innovative stormwater management and green roofs; and achieving the tree canopy goals for Tysons.
4. Further the implementation of the urban grid of streets and the described street hierarchy for Tysons.
5. Reduce the amount of single occupant vehicle trips by limiting the amount of provided parking, encouraging shared parking arrangements among uses, permitting the inclusion of managed tandem parking spaces, and implementing various Transportation Demand Management strategies, such as transit subsidies, carpool and vanpool services, employee shuttles, car-sharing programs and bicycle accommodations.

FAIRFAX COUNTY ZONING ORDINANCE

6. Contribute to the necessary public facilities to support the projected job and population growth, including schools, fire and police services, a library, public utilities, and an arts center.

8. Contribute to implementing the workforce and affordable housing policies for Tysons to provide housing to various income levels.

To these ends, a development proposal within the Tysons Corner Urban Center that utilizes the redevelopment option as set forth in the adopted comprehensive plan shall only be considered by the Board in conjunction with a rezoning application to this district. Such rezoning to and development under this district will be permitted only in accordance with development plans prepared and approved in accordance with this Part and the provisions of Article 16.

Additionally, new interim surface parking may be provided when the above-noted standards are satisfied and when such surface parking is designed to orient parking, loading and drive aisles to the rear and side of the structure.
 - D. In addition, the Board may impose such conditions and restrictions as it deems necessary to assure that the interim use and/or structure will be compatible with and will not adversely impact the ability to achieve the goals and objectives set forth in the adopted comprehensive plan.

6-508 Open Space

1. The amount of open space, provided on-site or off-site including publicly accessible parks, and other open space elements such as courtyards, plazas, trails, outdoor recreational facilities, landscaped rooftops, courtyards on structures, green roofs, or any rooftop recreational facilities, shall be determined by the Board in accordance with the adopted comprehensive plan recommendations for streetscape and urban park standards. Not more than one-half of the publicly accessible open space shall be accommodated above the street level, unless otherwise modified by the Board for the purposes of accommodating active recreation facilities.
2. In addition to Par. 1 above, there shall be a requirement to provide recreational facilities in conjunction with approval of a final development plan. PLANNED DEVELOPMENT DISTRICT REGULATIONS

parking, tandem parking, and/or shuttle arrangements that will be implemented for the proposed use(s) and how such spaces or shuttles will be managed; and a statement regarding how the proposed number of parking spaces addresses the goals of the Tysons Corner Urban Center, particularly with regard to achievement of the TDM goals set forth in the adopted comprehensive plan. Where parking is to be provided in phases in accordance with a phased development proposal, the parking plan shall provide the information set forth above for each proposed phase. In addition, a parking plan shall be developed in accordance with the following provided, however, the Board may reduce the minimum off-street parking requirements when it is demonstrated by the applicant and determined by the Board that such reduction is in furtherance of the goals of the Tysons Corner Urban Center:

- A. The amount of off-street parking for single family attached, multiple family, hotel/motel and office uses shall be based on the minimum (min.) and maximum (max.) spaces per unit or spaces per thousand (1000) square feet (sq. ft.) of gross floor area (gfa) as follows:

- B. For uses not specifically listed above, the minimum parking space requirement set forth in Sections 11-103, 11-104, 11-105 and 11-106 shall apply as follows:

- (1) In the TOD Districts, no minimum number of parking spaces are required and the rates set forth in such Sections serve as the maximum number of parking spaces permitted. In a multiple story structure, the first 5,000 square feet of gross floor area located on the ground or street level for the following uses are not included in the calculation of required parking: retail, personal/business services, quick service food store, restaurant, carryout restaurant and/or restaurant with drive-through.

FAIRFAX COUNTY ZONING ORDINANCE

- (2) In the Non-TOD Districts, the minimum number of parking spaces required shall be based on seventy-five percent (75%) of the specified rates set forth in such Sections and the maximum number of parking spaces permitted shall be based on one hundred ten percent (110%) of such specified parking rates.
 - C. The applicant shall demonstrate to the Board's satisfaction that the number of off-street parking spaces is not in excess of the transportation demand management (TDM) goals identified in the adopted comprehensive plan and shall satisfy such TDM goals in a manner acceptable to the Department of Transportation.
 - D. In a phased development proposal, the Board may approve the provision of parking for later phases of the development in an earlier phase when it is demonstrated that such additional parking in the early phase(s) is necessary due to construction requirements or in furtherance of the objectives of the adopted comprehensive plan. Additionally, when an existing use is proposed to be retained as an interim use, the parking accessory to such interim uses shall generally conform to the rates set forth above. In all cases set forth above, parking at the build-out phase of the development shall conform to the total number of spaces approved for the entire development.
2. It is intended that a substantial portion of the provided parking and loading spaces should be provided in above and/or below grade parking structures.
 3. In determining the number of loading spaces provided, the provisions of Sect. 11-203, Off-Street Loading, shall be used as a guide.
 4. Subsequent to an approved parking plan, no additional parking shall be required for a change in use, provided the mix of uses is in substantial conformance with the approved final development plan as provided for in Sect. 16-403.
 5. Parking approved by the Board pursuant to such parking plan may be provided on the lot that contains the use for which the parking is accessory or on a different lot from such use. When provided on a different lot that is not under the same ownership as the lot that contains the use for which the parking is accessory, the applicant shall submit evidence that the right to use or develop such parking has been granted by such owner(s) to ensure the permanent availability of such spaces. Additionally, tandem, valet and shuttle parking may be permitted as part of an approved parking plan, pursuant to this Section.

6-510

Additional Regulations

1. A site plan or minor site plan may be filed concurrently with the filing of a rezoning, special exception or special permit; however, no such plan shall be approved by the Director until the rezoning, special exception or special permit application has been approved by the Board. This concurrent processing shall not relieve the applicant from complying with the provisions of any applicable ordinances, regulations, or adopted standards, and shall not prejudice the consideration of the application in any way.
2. Refer to Article 16 for standards and development plan requirements for all planned developments.

PLANNED DEVELOPMENT DISTRICT REGULATIONS

3. Refer to Article 2, General Regulations, for provisions that may qualify or supplement the regulations presented above.
4. The landscaping and screening requirements of Article 13 shall apply as follows:
 - A. Part 1, General Provisions, shall be applicable.
 - B. Part 2, Parking Lot Landscaping, shall apply except where streetscape standards are set forth in the adopted comprehensive plan.
 - C. Part 3, Transitional Screening and Barriers, shall only apply at the peripheral boundary of the Tysons Corner Urban Center, as identified in the adopted comprehensive plan.
