**Amendments to Chapter 118 (Chesapeake Bay Preservation Ordinance) and Chapter 124 (Stormwater Management Ordinance) of the Code of the County of Fairfax, Virginia (County Code)** related to long-term maintenance of stormwater management facilities, illicit discharges, and enforcement. The proposed amendments to the Chesapeake Bay Preservation Ordinance incorporate the following provisions:

1. Replace the required density of plantings for establishment and restoration of Resource Protection Area (RPA) butlers in the ordinance with the requirements in the Public Facilities Manual.
2. Reduce the required caliper of trees for restoration of RPA buffers from 2 inches to 1.5 inches.

3. Make editorial and minor revisions including changing "shall" to "will" or "must" or "may" throughout the sections of the ordinance being amended.

The proposed amendments to the Stormwater Management Ordinance incorporate the following provisions:

1. Provide the Director of the Department of Public Works and Environmental Services (DPWES) with the authority to administer the provisions of Article 9, Illicit Discharges to the Storm Sewer System and State Waters.

2. Provide the Director of DPWES with the right-of-entry to perform inspections and the ability to obtain search warrants to perform inspections related to his responsibilities under the ordinance.

3. Delete the requirement that maintenance agreements include a requirement that owners to submit inspection and maintenance reports on an "annual" basis.

4. Provide for an alternative enforcement mechanism in lieu of a maintenance agreement for stormwater management facilities designed to treat stormwater runoff primarily from an individual lot on which the facility is located.

5. Transfer responsibility to establish a post-construction inspection program to ensure continuing maintenance of stormwater management facilities from the Director of Land Development Services to the Director of DPWES.

6. Require the Director of DPWES to establish an inspection program that ensures that stormwater management facilities are being adequately maintained as designed after completion of land-disturbing activities.

7. Provide the Director of DPWES with the authority to enforce violations of §124-2-10 and Article 9 and hear appeals of any such enforcement actions in accordance with the procedures under Article 7.

8. Clarifies that discharges exceeding limits in a state-issued permit is a violation.

9. Make editorial and minor revisions including changing "shall" to "will" or "must" or "may" throughout the sections of the ordinance being amended.

All persons wishing to present their views on these subjects may call the Planning Commission at 703-324-2865 to be placed on the Speakers List or may appear and be heard.
