Notes/Narratives

On May 18th, 2016 I responded to [REDACTED] for a larceny report. There, I spoke with thirteen year old [REDACTED] was home with his older brother and advised that his mother knew he was making this report to the police.

He explained that he left his iPhone 6 near the soccer fields at Carl Sandburg Middle School at about 1500 hours on May 13th, 2016. He used the "find my phone" application to find it later that same evening with his mother. It was located in a patch of woods near Park Terrace Road and the George Washington Pkwy at about 2000 hours.

The password had been changed but it was functioning normally otherwise and wasn't damaged. He was able to re-establish dominion of the phone by changing the password again. However, he wasn't able to find his phone case. He described the phone case as a Mophie cover.

[REDACTED] was upset today because his social media applications were vulnerable during the time his phone was missing and had been altered. He has since changed his passwords and restored his social media accounts to their original condition.

There are no suspects in this theft. However, [REDACTED] suspects that the thief is somebody about his age and not an adult.
