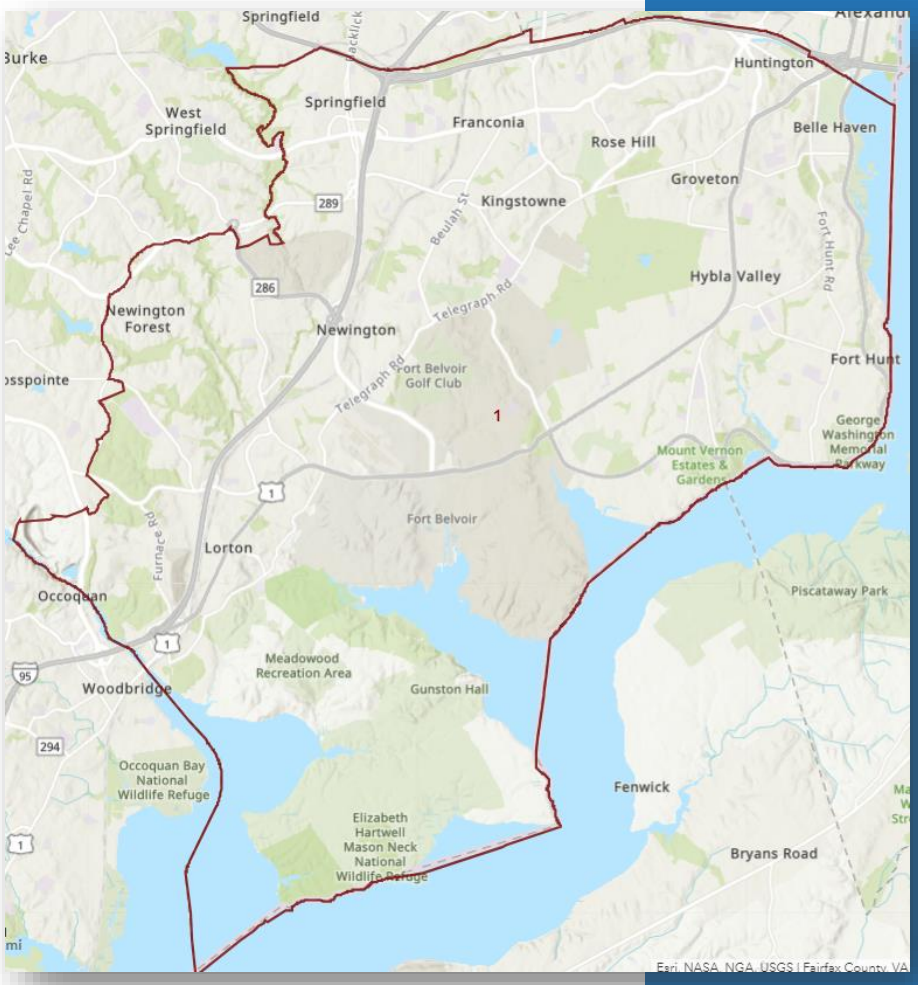
Community Profile - Human Services Region 1 Southern Fairfax County



Prepared by: Department of Neighborhood and Community Services, Fairfax County Government.
9/30/2024

This page intentionally left blank.

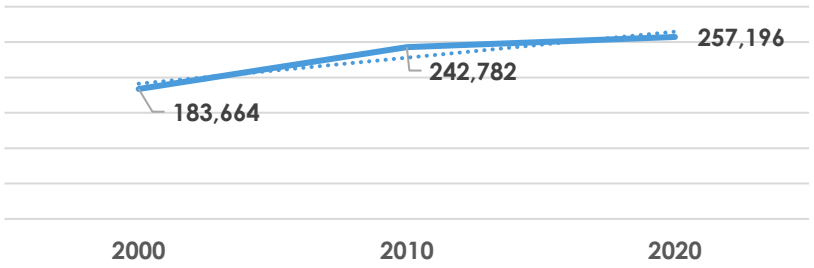
Introduction

This report offers a detailed analysis of demographic and socio-economic trends in Fairfax County Human Services Region 1. It examines population dynamics, family structures, and household compositions, which are vital for effective planning and resource allocation. The report highlights the foreign-born population and the diversity of languages spoken at home, illustrating the region's multicultural character. It also explores racial and ethnic characteristics, age distribution, income levels, and poverty rates to identify economic disparities. Additionally, it assesses disability status and health insurance coverage to gauge residents' well-being. Transportation patterns, particularly commuting, are discussed in the context of infrastructure needs, while educational attainment and technology use are analyzed for workforce development. The report further examines housing characteristics, employment statistics, basic needs requests, crime statistics, and vulnerability analysis to inform policies that enhance community quality of life. This comprehensive approach aims to support stakeholders in addressing community challenges.

Population Trend

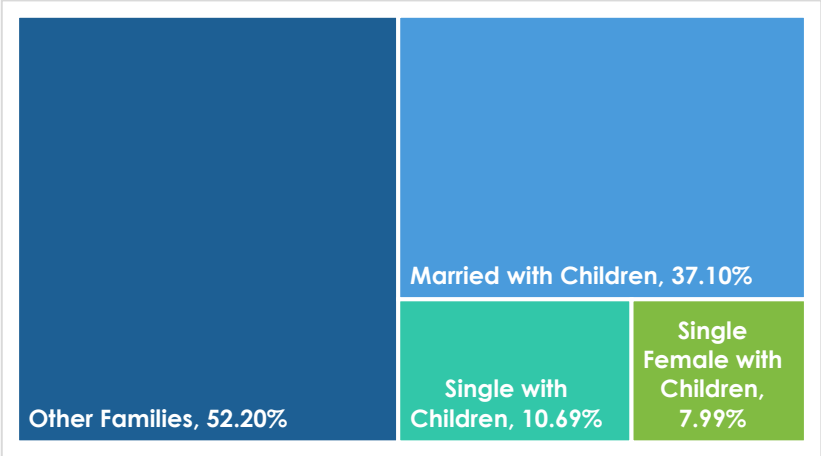
As of the period 2020, this area was home to an estimated 257,196 people. The population grew by 5.94% between 2010 and 2020.

93,827 of Households live in this area.



Families and Households

The composition of the 63,919 families who reside in the study area is shown in the chart. Families are groups of related people who live together, whereas households refer to the person or group of people living in anyone housing unit. Generally, households that do not contain a family are made up of unrelated people living together (ex. roommates) or people living alone. While it is possible for two families to share a household, the difference between the number of households and the number of families in an area shows, approximately, the number of non-family households in a place.

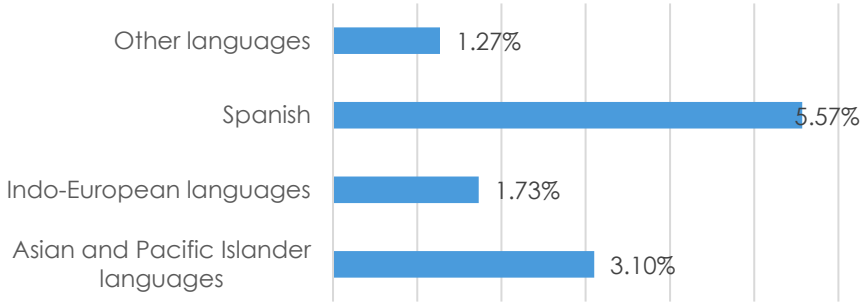


Foreign Born

Data from the U.S. Census Bureau for 2018-2022 indicate that 72,091 people or 27.65% of the population living in this area were "foreign born". Census defines foreign born as anyone who is not a U.S. citizen at birth.

Languages spoken at home

Percent of the population age 5 years and above who speak English less than very well.

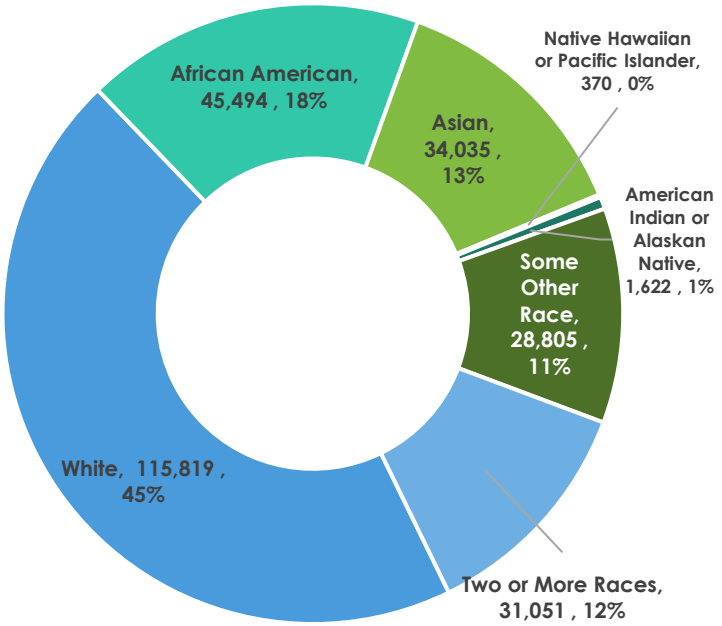


Racial and Ethnic Characteristics

Of the people living in this area in 2020, 45.03% are White, 17.69% are African American, 21.49% are Hispanic, 13.23% are Asian, 0.14% are either Native Hawaiian or Pacific Islander, 0.63% are American Indian or Alaskan Native, 11.2% are of "some other race" and 12.07% are of two or more races.

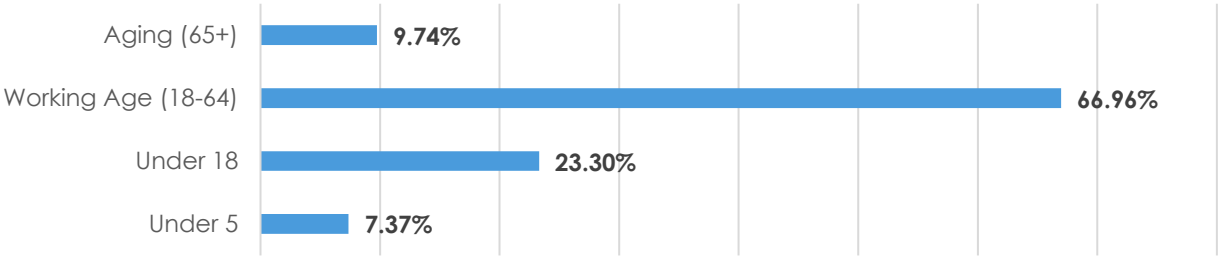
Between 2010 and 2020, the White population changed by -16.5%, the African American population by 6.89%, and Asian population by 15.08%. The number of Hispanics changed by 20.75%.

55,280 (21.49%) of the population is of Hispanic origin.



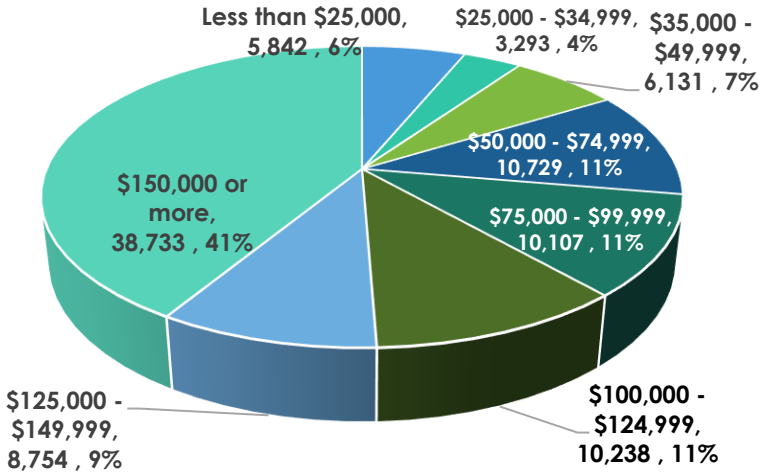
Age Distribution

In the report area in 2018-2022, 14% of the population is over the age of 65. 61.59% are of working age (18-64). 24.41% are under 18, and 7.25% are under 5 years old.



Income Distribution

The median household income for the study area ranged from $56,295 to $250,001, compared to the state of Virginia with a median of $87,249, as estimated for 2018-2022 by the Census' American Community Survey. The number of households divided by income categories is shown in the Annual Income Category. In the period of 2018-2022, 16.27% of households in the study area had an annual income of less than $50,000, compared to 28.67% of people in the state of Virginia.



Poverty

Key Facts	Estimates
All families	4.69%
All people	5.61%
Age under 18 years	7.64%
Age 65 years and over	4.62%

Disability Status

Key Facts	Estimates
Total population with a disability	9.23%
Under 18 years with a disability	3.18%
65 years and over with a disability	26.46%

Health Insurance

6.97 percent civilian noninstitutionalized population with no health insurance coverage.

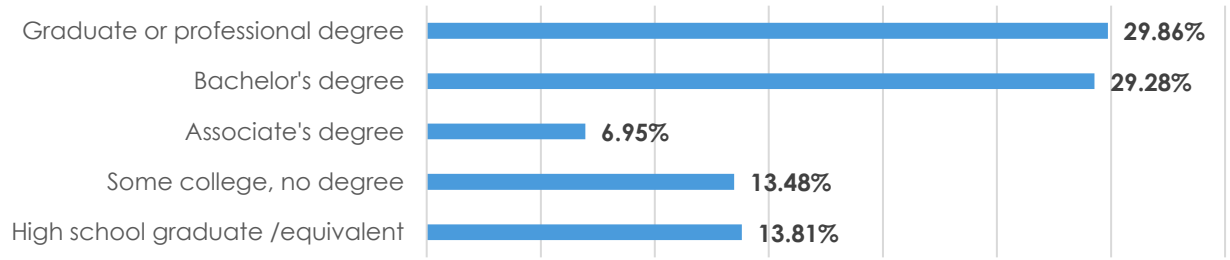
Commuting to Work

In this area in 2018-2022, the Census estimates that the percent of the workers 16 years and older used following transportation methods to commute to work.

Key Facts	Estimates
Mean travel time to work (minutes)	32.6
Car, truck, or van -- drove alone	83,200
Car, truck, or van -- carpooled	12,377
Public transportation (excluding taxicab)	11,806
Walked	1,677
Other means	2,697
Worked from home	25,885

Education

93.37% percent of the population have education attainment high school or higher.



Computer and Internet Use

Key Facts	Estimates
Percent of total households with a broadband Internet subscription	94.87%
Percent of total households With a computer	95.86%

Housing Inventory Characteristics

The type of housing available in this area is described in the table below. Single family homes include all one-unit structures, both attached and detached. Townhouses or duplexes include one-unit attached homes, as well as housing units with two units. Units in small apartment building are buildings with 3 to 49 units; large apartment buildings include buildings with 50 units or more. Other types of housing include vans, boats, recreational vehicles, or other units.

2018-2022 Housing Stock	Number of Units	Percent of Units
Single family detached homes	40,741	41.68%
Single family attached homes	27,416	28.05%
2-unit homes and duplexes	479	0.49%
Units in small apartment buildings	19,070	19.51%
Units in large apartment buildings	9,012	9.22%
Mobile homes or manufactured housing	980	1%
Other types	40	0.04%

Across the area, an estimated 67.53% or 63,364 households owned their home between 2018-2022.

Retail Trade	10,893	8.22%
Construction	7,727	5.83%
Transportation and Warehousing, and Utilities	4,495	3.39%
Wholesale Trade	1,561	1.18%
All Other	22	0.02%

Crimes Statistics

The crime statistics for Mount Vernon and Franconia show that both areas experience significant levels of criminal activity, with crimes against property being more common than crimes against persons. Larceny stands out as the most frequent crime in both stations, reflecting a high incidence of theft related offenses. Although the overall numbers for crimes against persons and property are similar between the two areas, Mount Vernon has a slightly higher rate of personal crimes, while Franconia has a marginally higher occurrence of property crimes. These figures indicate that both areas face similar challenges in terms of criminal activity with a slight variation in the types of crimes that are more prevalent.

Crimes Against Person	Mount Vernon	Franconia	Totals
Simple Assault	1,342	1,163	**2,505**
Aggravated Assault	135	79	**214**
Sex Offense, Forcible	62	34	**96**
Homicide	2	1	**3**
Totals	**1,541**	**1,277**	**2,818**

Total	**4640**	**6269**	**6381**	**5996**	**5169**	**28455**

Fairfax County Vulnerability Analysis

The Vulnerability Index shows how areas in the county are doing relative to other areas of the county based on occupation, education, language, income, transportation, health insurance, and housing. It can be used with data on community engagement, service delivery, programming, funding, and more to inform decision making.

The map depicts a vulnerability index for a specific Region 1 with darker shades indicating areas of higher vulnerability. The darkest areas particularly in the center of the mapped area show the highest levels of vulnerability. These areas are experiencing a combination of socioeconomic and environmental challenges that contribute to their heightened risk. Surrounding these high-risk zones are areas with varying degrees of vulnerability, illustrated by lighter shade. The lightest areas, mainly located towards the periphery, exhibit the lowest levels of vulnerability, suggesting more stable conditions.

This contrast highlights the disparities within the region and emphasizes the need for targeted interventions, in the darkest most vulnerable areas.
