Introduction:
The following Strategic Plan for the Fairfax County Small Business Commission (SBC) is in accordance with the SBC’s Purpose Statement and provides Goals, Objectives, and Actions. Following this Strategic Plan will increase the effectiveness of the Commission and allow the SBC to monitor and measure progress.

In addition, we anticipate that this Plan will lead to activities that will be highly supportive of the “One Fairfax” resolution, dated July 12, 2016. It could directly contribute to the aspirations of that resolution specifically toward the following aspects of the resolution (bolding added):

“Whereas, achieving racial and social equity are integral to Fairfax County’s future economic success, as illustrated in the Equitable Growth Profile and highlighted as a goal in the Strategic Plan to Facilitate the Economic Success of Fairfax County; and,

Whereas, we define Racial Equity as the development of policies, practices and strategic investments\(^1\) to reverse racial disparity trends, eliminate institutional racism, and ensure that outcomes and opportunities for all people are no longer predictable by race; ...

Whereas, as servants of the public we are committed to the definition of social equity adopted by the National Academy of Public Administration – “the fair, just and equitable management of all institutions servicing the public directly or by contract; the fair, just and equitable distribution of public services and implementation of public policy; and the commitment to promote fairness, justice, and equity in the formation of public policy.”

The SBC not only accepts and agrees with the aspirations of the resolution as it applies to the SBC goals and objectives, but would extend those aspirations to eliminating any cultural, gender, and sexual preference barriers to equal treatment. None of these distinctions should be decisive in business opportunities, distribution of services received from the county, or fair and just execution of policy or practice.

The Strategic Plan identifies the near term (over the next five years) plans for Commission activities and their potential impact. Each Goal is directly related to one or more Purpose Statements in the SBC Charter\(^2\) and relates to the larger direction of the SBC over the next several years. Objectives speak to the specific aspects of the Goal that are targets to achieve. Actions speak to step by step or individual activities that should help SBC satisfy their Objectives and accomplish their Goals.

Purpose Statements for the Small Business Commission:
The basis of the Strategic Plan must be anchored in the Purpose Statements found in the SBC Charter which include:

\(^1\) The SBC’s contribution in this regard would be to advise and inform the Board of Supervisors in reaching this aspiration.
