ELECTRONIC MEETING SCRIPT

Fairfax County Tree Commission

July 16, 2020

From the Chairman:

To conduct this meeting wholly electronically and to effectuate both the emergency procedures authorized by FOIA, the Fairfax County Tree Commission to make certain findings and determinations for the record.

Audibility of Members' Voices

First, because each member of the Fairfax County Tree Commission is participating in this meeting from a separate location, we must verify that a quorum of members is participating, and that each member's voice is clear, audible, and at an appropriate volume for all of the other members. Accordingly, I am going to conduct a roll call, and ask each the Fairfax County Tree Commission member participating in this meeting to state your name and the location from which you are participating. I ask that each of you pay close attention to ensure that you can hear each of your colleagues. Following this roll call, we will vote to establish that every member can hear every other member.

See Attendance for Roll Call.

Virtual gavel passed to Vice-Chairman McGlone, so that Cathy Ledec may be heard making the requisite motion.

Cathy Ledec moved that each member's voice can be adequately heard by each other member of this the Fairfax County Tree Commission.

Motion Approved

Cory Suter seconded. Motioned Carried Unanimously.

Need for an Electronic Meeting

Second, having established that each member's voice may be heard by every other member, we must next establish the nature of the emergency that compels these emergency procedures, the fact that we are meeting electronically, what type of electronic communication is being used, and how we have arranged for public access to this meeting.

Therefore, Cathy Ledec moved that the State of Emergency caused by the COVID-19 pandemic makes it unsafe for the Fairfax County Tree Commission to physically assemble and unsafe for the public to physically attend any such meeting, and that as such, FOIA's usual procedures, which require the physical assembly of the Fairfax County Tree Commission and the physical presence of the public, cannot be implemented safely or practically. Cathy Ledec further moved that the Fairfax County Tree Commission may conduct this meeting electronically through a dedicated audio conferencing line, and that the public may access this meeting by calling 1 877-336-1829 Participant Access Code: 7703575. It is so moved.

Laura Beaty seconded; motion carried unanimously.

Need to dispense with FOIA's Usual Procedures to Assure Continuity in Government/Continue Operations

Finally, it is next required that all of the matters addressed on today's agenda must address the Emergency itself, are necessary for continuity in Fairfax County government, and/or are statutorily required or necessary to continue operations and the discharge of the Fairfax County Tree Commission lawful purposes, duties, and responsibilities. It is so moved.

John Burke seconded; motion carried unanimously.
