NOT ACCEPTED ✗

- Explosives
- Ammunition
- Radioactive Materials
- Medical or Biological Waste
- Compressed Gas Cylinders (Other than oxygen, carbon dioxide, helium, nitrogen, propane, MAPP gas, fire extinguishers, argon, refrigerant, and instapak (Part A& B). Call for pricing.)

WHAT IS A VSQG?

Businesses that generate **less than 100 kilograms (220.46 lbs. or 27 gallons) of hazardous waste per calendar month** are called Very Small Quantity Generators or VSQGs.

Businesses can also qualify as VSQGs if they produce **less than one kilogram (2.2 lbs. or 1/4 of a gallon) of acutely hazardous waste per calendar month**. The most common VSQGs in Fairfax County are county agencies, schools, universities, non-profit organizations, places of worship, print shops, auto repair shops, household painting businesses, building contractors, manufacturing firms, landscape contractors and nurseries, property management companies, funeral homes, and exterminators.

WHAT IS THE FAIRFAX COUNTY VSQG PROGRAM?

The Fairfax County VSQG Program provides businesses with an economical way to manage small quantities of hazardous waste. VSQGs often have difficulty with disposing of small quantities of hazardous waste. Hazardous waste companies usually have a minimum amount of waste they will pick up or charge a minimum fee for service. Typically, the minimum fee exceeds the cost of disposal for hazardous waste. This leaves the small quantity generator in a difficult situation.

Our charges are based on the amount of material to be disposed of and include all consolidating, packaging, manifest paperwork, and shipping preparations. Payment is due upon arrival.

Visa, MasterCard, American Express, Discover, checks or cash are accepted. Make checks payable to Director of Finance, Fairfax County.

www.fairfaxcounty.gov/publicworks/vsqq

HOW CAN MY BUSINESS PARTICIPATE?

Any small business in Fairfax County (including businesses in cities and towns within Fairfax County) that qualifies as a VSQG may participate in one of the six disposal events scheduled.

Bring your hazardous waste to the I-66 Transfer Station from 9 a.m. to 2 p.m. on a VSQG disposal day. We are not able to accept waste on days other than the scheduled event dates.

When you arrive, we will determine if you qualify for the program based on the types and amounts of waste you generate.

You must show proof that your business is located in Fairfax County by providing a copy of your tax exempt I.D., business, personal property, state, or county license.

A waiver must be signed and notarized certifying that your business is located in Fairfax County and generates less than 100 kilograms (220.46 lbs.) of hazardous waste per month and less than 1 kg (2.2 pounds) of acutely toxic ("P"- listed) waste per calendar month.

Please note that non-hazardous waste such as latex paint does not count against your generation status. There is no limit to the amount of non-hazardous waste you can dispose of. Waste must be in five-gallon containers or smaller, with lids. All containers must be labeled for identification.

VSQG MATERIAL LIST

Visit www.fairfaxcounty.gov/publicworks/vsqq for current pricing. Prices will be rounded off to the nearest gallon. For example, 1/2 gallons of material will be charged as if it were one gallon of material.

Absorbent Material w/oil

Absorbent Material w/solvent

Aerosols (pesticides, cleaners, paint)

Antifreeze

Asbestos Solids

Asbestos Liquids (see oil paint, small cans)

Chemicals

Acids (bulk)

Chemicals (special routing)

Ammoniums (bulk)

Oxidizers (liquid or solid)

Bases, sodium met silicate

Pesticides (liquid or solid)

Coal Tar (quart or more)

Cooking Oil (no grease)

Dioxin Material

Fire Extinguishers

Fluorescent Tubes & Light Bulbs

Latex Paint

Lead Acid Batteries

Lithium Batteries

Mercury/Mercury Debris

(includes mercury and/or zinc air batteries)

Nickel Cadmium Batteries

Oil (no gas or antifreeze mixtures)

Oil Paint (quart or more)

Oil Paint (small cans)

(Less than a quart. Also including glues, auto body filler, wood filler, epoxy, appliance and car touch-up paint, construction adhesives, tire black, PVC and flammable cements, putty or caulk, tree pruning seal, asbestos liquid, etc.)

PCB Ballasts

PCB Capacitors

Solvents

(Flammable solvents, gasoline, acetone, methanol, ethanol, mineral spirits, alcohol, turpentine, MEK, petroleum distillates, etc.)
