**Fairfax Police Tactical Operations  
Operations Support Bureau (OSB)  
PROJECT NO. PS-000011-001**

Fairfax County is soliciting pre-bid qualifications for the construction of the **Fairfax Police Tactical Operations - Operations Support Bureau (OSB)**, located at **3911 Woodburn Road, Annandale, VA 22003**. Only firms that have been pre-qualified in accordance with the procedures in the Pre-qualification Application will be eligible to submit bids for this project. Bids received from those who have not been pre-qualified will not be considered. Construction bids for this project are currently scheduled to be opened in **September 2021**.

The OSB facility is used by the Fairfax County Police Department (FCPD) as a tactical operations center. On-site OSB staff service Fairfax County Police operations during emergency situations 24 hours a day, seven days a week. This facility is in continuous use at this time providing social distancing options for those serving the facilities' core mission. The site includes an adjoining Communications Center and is used by the Department of Public Safety Communications (DPSC). The existing 35,712 square foot, two-story OSB building was built as a school in the 1960's and was last renovated in 1985 when FCPD occupied the building. The subject project requires occupied phased construction including demolition of the existing OSB building (Communications Center Structure to remain) and sitework. During construction, it is crucial that the DPSC Communications Backup Center remain fully operational every day around the clock. The proposed OSB building includes two stories and approximately 37,000 square feet (SF) of interior space with a building height of approximately 35-feet. The exterior of the OSB building will be comprised of glass, brick, and metal panels. The new OSB building addition will wrap around the west and south side of the existing-to-remain communications building. Three detached, prefabricated, one-story metal garages, comprising a total area of approximately 17,500 SF, will be constructed for motorcycle storage, special emergency operations vehicles storage, vehicles maintenance, and evidence examination area. The work also includes building two structural steel covered parking canopies with a total area of 3,120 SF. The existing parking lot and entrances will be reconfigured to accommodate the proposed garage structures and vehicle bays. Sitework includes a secure fence area containing 125 parking spaces, a public parking lot with 100 parking stalls for use by the adjacent park, bioretention stormwater treatment features, and reworking the utility infrastructure. The multifaceted phasing of the project construction will require continuous and detailed communication and coordination with the Owner to maintain DPSC's and OSB operations.

The proposed OSB building will include, but is not limited to, sustainability features to meet LEED V3 Gold certification, a NetZero energy target, high-efficiency HVAC systems and controls, LED lighting and controls, enhanced commissioning, a high-performance building envelope, and the infrastructure for installing the roof mounted solar photovoltaic (PV) system.

The General Contract for this project is anticipated to be advertised for bid in **August 2021** with bid opening in **September 2021**. Contract Award and start of construction are anticipated to occur in **fall 2021**. The overall construction duration is planned to be approximately **34 months**. These are estimated dates, seasons, and durations and are subject to change. The cost for this project is estimated to be approximately **\$22 million (USD)**.

The County will notify all Applicants in writing whether or not they have been determined to be a pre-qualified contractor within thirty (30) calendar days after the deadline for receipt of the Prequalification Application. This decision shall be final and conclusive unless the Applicant appeals within ten (10) calendar days of receipt of the Notice by instituting legal action as provided in the Code of Virginia.

If, upon appeal, it is determined that the action taken by the County was arbitrary or capricious, or not in accordance with the Constitution of Virginia, statutes or regulations, the sole relief available to the Applicant shall be restoration of eligibility. The Applicant may not institute legal action until all statutory requirements have been met.

In determining whether an Applicant should be pre-qualified, the County, in its sole and absolute discretion, will decide whether the Applicant is capable of fully performing the contractual requirements for the Project, in all respects. The pre-qualification process is designed to determine the applicant's performance capability as well as its business integrity and reliability.

- B. Any unsatisfactory references may serve as a basis for disqualification of the Applicant. Examples of unsatisfactory references include but are not limited to untimely performance, failure to properly schedule the work, failure to complete the work, defective work not corrected, failure to complete punch list work, lack of proper manpower to meet scheduled activities, poor workmanship, submission of unreasonable claims, failure to make prompt payments, inappropriate staffing, or any other documented evidence of noncompliance with the terms and conditions of prior construction contracts.
- C. In evaluating each Application for Pre-qualification, the County will consider information provided in the Application for Pre-qualification and the following criteria:
  - 1. The Applicant must have been established as a full-time construction contractor for a minimum of ten (10) years holding or eligible to hold a Virginia Class A contracting license.
  - 2. The Applicant shall have acted as a General Contractor and have completed construction of at least three (3) similar construction projects for governmental, institutional or private owners, each with an original contract value of \$ **17 Million** or more within the past seven (7) years.

  - 4. Ability to obtain Performance and Payment Bonds in the amounts required for this project.
  - 5. Possession of a valid Class A Virginia Contractor's license prior to bid submission.
- D. Applications will be evaluated in accordance with the criteria listed in these Instructions. An unsatisfactory rating in any one category may be considered sufficient cause to determine that an Applicant is "not qualified to bid".

- E. By submitting an Application, the Applicant agrees that the County and/or its representatives may research the information provided and contact entities associated with such information, at its discretion.
- F. The County or its designee may deny pre-qualification to any Applicant if it finds any of the following (in addition to other criteria outlined in this Application):
1. Pre-qualification submittals that fail to conform to the requirements of the Pre-qualification Application may be considered non-responsive and the Applicant determined to be "not qualified to bid".
  2. If any Applicant knowingly makes a misrepresentation in submitting information to the County, such misrepresentation may be sufficient grounds for denying pre-qualification to that Applicant or rescinding the Applicant's pre-qualification. Any such misrepresentation may also result in debarment of the Applicant by the County.
  3. The Applicant does not have sufficient financial ability, including bonding capacity, to perform the contract.
  4. Applicant does not meet minimum experience requirements.
  5. The Applicant does not have the appropriate staff or experience to perform the work.
  6. The Applicant (or any officer, director, or owner thereof) has had judgments entered against him/her within the past ten (10) years for the breach of contract for governmental or non-governmental projects, including but not limited to, construction, design-build or construction management contracts.
