Waste Management Presentation to the South County Federation

Lorton Landfill Update

October 09, 2018

THINK GREEN.
Waste Management (WM) Overview

• Leading provider of comprehensive waste management services in North America
• Providing collection, transfer, recycling and resource recovery, and disposal services
• Leading developer, operator and owner of landfill gas-to-energy facilities in the United States
• Customers include residential, commercial, industrial, and municipal customers throughout North America
• Operate in 48 States and Canada
• 243 Active Landfills
WM and Lorton Landfill Commitment

• Ceasing waste intake no later than 12/31/2018

• Protecting Public, Health, Welfare and Public Safety

• Complying with all permits (local, state, and federal)

• Partnering with Fairfax County and Community to address concerns and provide updates

• May 13, 2009 Public Access and Use Agreement. Details regarding interim access during closure construction and post closure care period to be worked out
Projected Activity Timeline

- August 31, 2017 - ESI submits Closure/Post Closure Permit Modification Request (includes notification of intention to cease waste intake NLT 12/31/2018)
- March 15, 2018 - WM merges with ESI
- April 12, 2018 - Initial meeting with Fairfax County; Arcadis issues review findings of Lorton Closure Plan
- April 26, 2018 - Initial meeting with Supervisor Storck
- May 3, 2018 - Initial meeting with VDEQ and Fairfax County
- May 15, 2018 - Meeting with WM ELMG to discuss transition
Projected Activity Timeline

- July 2018 - Began work on 20-acre final cap and other miscellaneous projects
- August 2018 - Began import of clean soil for closure operations
- December 31, 2018 - Cease waste intake operations; begin closure operations (final grading, soil import, etc.)
- Q3 2020 (Pending DEQ Approval) - Complete closure activities and request enter into Post Closure*
- December 2030 (Pending DEQ Approval) - Tentative date for Post Closure to terminate*

* Consistent with Fairfax County closure status meeting 3-13-2018 as posted on Fairfaxcounty.gov
Final Waste Elevation

Final waste elevation = 412 feet - confirm monthly with UAV technology
