# County of Fairfax, Virginia

To protect and enrich the quality of life for the people, neighborhoods and diverse communities of Fairfax County

November 17, 2022

The Board of Supervisors  
County of Fairfax  
Commonwealth of Virginia

Honorable Chairman and Members of the Board:

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) for the County of Fairfax, Virginia (the County) Integrated Sewer System (the System) for the fiscal year ended June 30, 2022. The financial statements included in this report conform to U.S. generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the System. All necessary disclosures have been included to enable the reader to gain the maximum understanding of the System's financial affairs.

The General Bond Resolution dated July 29, 1985, governing the issuance of sewer revenue bonds, as modified through July 2009, requires an annual audit of the financial records and transactions of the System by independent certified public accountants. The System's financial statements for the year ended June 30, 2022, were audited by the accounting firm of Cherry Bekaert LLP. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering their opinion that the financial statements are fairly presented in conformity with GAAP. The report of independent auditor is presented in the financial section of this ACFR.

This ACFR consists of management's representations concerning the finances of the System. To provide a reasonable basis for making these representations, the System's accounting system is dependent upon a strong foundation of internal accounting controls to ensure that financial information generated is both accurate and reliable; however, because the cost of a control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The System's MD&A can be found immediately following the report of independent auditor.

## PROFILE OF THE SYSTEM

The Fairfax County, Virginia Integrated Sewer System is operated as the Wastewater Management Program (WWM), one of four major activities of the Department of Public Works and Environmental Services, and governed by the County of Fairfax, Board of Supervisors. The System handles approximately 98 million gallons of wastewater per day (MGD) generated mostly from approximately 954,000 County residents. More than 88 percent of the 424,100 County housing units and virtually all businesses in the County are connected to the public sewer system.

---

[www.fairfaxcounty.gov](http://www.fairfaxcounty.gov)

FAIRFAX COUNTY  
WASTEWATER MANAGEMENT

Quality of Water = Quality of Life

The System consists of over 3,250 miles of sewer lines and force mains ranging in size from 8 inches to 72 inches, 63 pump stations ranging in capacity from 0.1 to 37 MGD, and 57 metering stations. The total System workforce is 330 employees. The sewer service area covers approximately 234 square miles in the Potomac River Watershed, a tributary shed of the Chesapeake Bay Basin.

Nearby counties, cities, and towns served by the System receive service through sales of service agreements. The System currently has agreements with the Counties of Loudoun and Arlington, Fort Belvoir, the Cities of Fairfax and Falls Church, and the Towns of Herndon and Vienna. As prescribed by each service agreement, each entity shares in the cost of operating the System. Each entity's share is determined on the basis of actual wastewater flows or reserved treatment capacity.

To treat the wastewater flows generated, the System operates and maintains one advanced wastewater treatment plant, the 67 MGD Noman M. Cole, Jr. Pollution Control Plant, and has 89.50 MGD of purchased capacity entitlement at five non-County facilities, all of which are advanced wastewater treatment facilities. Purchased capacity entitlements are managed through treatment by contract agreements with the District of Columbia Water and Sewer Authority (the Blue Plains Advanced Water Treatment Facility), Loudoun County, Alexandria Renew Enterprises (ARE), Upper Occoquan Sewage Authority (UOSA), and Arlington County. In addition, the System has purchased 0.1 MGD of capacity from the Prince William County Service Authority. As prescribed by each agreement, the System pays its share of the operating, capital, and/or debt costs of each entity's system based on actual wastewater flows and allocated capacity.

## **FACTORS AFFECTING FINANCIAL CONDITION**

### **Local Economy**

Business, Professional, and Occupational License (BPOL) and Sales Taxes are two revenue sources that are good indicators of economic activity in the County. In FY 2022, overall BPOL tax receipts increased 7.6 percent over the previous fiscal year. FY 2022 Sales Tax receipts increased 15.1 percent. The unemployment rate in the County as of June 2022 was 2.5 percent. Residential sewer connections in the system, which are a measure of system growth, grew 0.3 percent in fiscal year 2022.

### **Debt Management**

To finance major capital projects, the System borrows money by issuing sewer revenue bonds or sharing in debt issued by other service authorities. Authorization to issue any debt or share in any debt service rests with the County's Board of Supervisors. As of June 30, 2022, the System had \$489.2 million in Sewer revenue bonds, \$20.1 million in EDA bonds, and \$220.9 million in UOSA debt outstanding. The System continues to maintain its status as a top-rated bond issuer: AAA from Fitch Investor Service (Fitch) and Standard and Poor's Corporation (S&P) and AAA from Moody's Investors Service, Inc (Moody's).

Note (8) to the Financial Statements provides information pertaining to future debt service payments. Table 3 in the Statistical Section provides historical information regarding debt coverage and debt service requirements of the System.

### **Relevant Financial Policies**

SSewer rates are reviewed and revised annually as part of the County's annual strategic planning and budgeting process in order to minimize the annual cost impact on customers due to increases in funding needs for Wastewater Program funding.

## Major Initiatives and Accomplishments

**Nutrient Removal at Area Treatment Plants** - In August 2004, the Virginia Department of Environmental Quality proposed reduced nutrient waste load allocations for Virginia wastewater treatment facilities as amendments to the Water Quality Management Regulation (9VAC25-720). These load allocations were then incorporated into the Virginia's Phase I Watershed Implementation Plan for meeting the EPA Chesapeake Bay Total Maximum Daily Loads (TMDL). To meet the load allocations, enhanced nutrient removal was required of all wastewater treatment plants serving Fairfax County to meet more stringent Chesapeake Bay water quality standards by January 1, 2011. Significant capital funding has been needed to bring treatment facilities into compliance. At the Noman M. Cole, Jr. Pollution Control Plant, a new Moving Bed Bioreactor was constructed and brought on line in 2012 to comply with the new waste load allocation. As a result of the new facility, the Noman M. Cole, Jr. Pollution Control Plant was under its new waste load allocation by more than 50 percent. In fiscal year 2022, total nitrogen discharges from the County's Noman M. Cole, Jr. Pollution Control Plant averaged less than 2.4 mg/l.

**Solid Stabilization and Disposal** - The Noman M. Cole, Jr. Pollution Control Plant initiated a Biosolids Program in fiscal year 2014 to meet the new EPA Clean Air Act regulations. Phase I includes replacement of the Venturi Scrubbers on the incinerators to provide compliance with the new Clean Air Act Maximum Available Control Technology requirements that went into effect in March 2016. Phases I & II have been completed. Construction on Phase III of the program focuses on the rehabilitation of the existing incineration system and supporting biosolids processing infrastructure. It commenced in fiscal year 2020. Phase IV is expected to commence construction in fiscal year 2027.

**Primary and Secondary Renewal Program** - In fiscal year 2016, the Noman M. Cole, Jr. Pollution Control Plant initiated a renewal program of the facility's primary and secondary process areas. The goal of the program is to renew facilities to address current and future process, technological, and capacity needs. The program currently has two major phases, interim sustaining improvements and the major program renewal which includes piloting of technologies. Assessment and design of the interim sustaining improvement is in progress and construction is scheduled to start in fiscal year 2023. Depending on the results of piloting and technologies selected construction on the first phase of the major program is estimated to start in fiscal year 2030.

**Major Sustaining Program** - In fiscal year 2020, WTD initiated a Major Sustaining Study to evaluate infrastructure throughout the facility, include portions of the advanced water treatment, reclaimed water, and preliminary treatment systems. It is expected that this evaluation will be completed in fiscal year 2021. Upon completion, appropriate projects and schedules will be created to address findings of the study, both in terms of scope and timing. It is anticipated that findings of the evaluation will result in multiple design and construction packages with some their implementation occurring within the next five fiscal years.

## AWARDS

**GFOA Certificate of Achievement for Excellence in Financial Reporting** - For the nineteenth consecutive year, the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the System for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a government entity must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both GAAP and applicable financial reporting requirements.

A Certificate of Achievement is valid for one year only. We believe our current ACFR continues to meet Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards of state and local government financial reports.

**NACWA Platinum Peak Performance Award** - The System's Noman M. Cole, Jr. Pollution Control Plant received the Peak Performance Award from the National Association of Clean Water Agencies (NACWA), recognizing the facility's accomplishments in protecting water quality in the County. The award recognizes plants that obtain permit compliance of federal standards for preventing pollution. The System's Noman M. Cole, Jr. Pollution Control Plant has received NACWA awards for permit compliance since 1984. The plant has protected the water quality of the County's streams and watersheds, as well as the Chesapeake Bay.

**Extraordinary Environmental Enterprise** - The Wastewater Management program has received the designation of Extraordinary Environment Enterprise (E4) from the Virginia Department of Environmental Quality (DEQ) Virginia Environmental Excellence Program (VEEP) for its Environmental Management System (EMS). Currently approximately 276 public and private organizations participate in the VEEP EMS certification program at the E2, E3, and E4 levels. Of these 276 organizations, approximately 44 facilities within the State have reached the E4 level of certification. This designation recognizes facilities that have fully implemented an EMS emphasizing pollution prevention, continual improvement, environmental outreach, and sustainability. This program encourages facilities to surpass compliance with federal and local regulations and engage in environmental stewardship and sustainability practices.

**Utility of the Future Recognition (UOTF)** - The Wastewater Management Program retained the Utility of the Future Today recognition by the Water Environment Federation, National Association of Clean Water Agencies, Water Environment & Reuse Foundation and Water Reuse Association. The UOTF concept was introduced in 2016 to guide utilities of all sizes toward smarter, more efficient operations and a progression to full resource recovery with enhanced productivity, sustainability, and resiliency. Fairfax County Wastewater Management was one of the sixty-five utilities were honored to receive the UOTF Award.

## ACKNOWLEDGMENTS

We express our sincere appreciation to all staff who contributed to this ACFR, especially the members of the System's Wastewater Planning and Monitoring Division of the Department of Public Works and Environmental Services and the Financial Reporting Division of the Department of Finance, who prepared and compiled this report. We commend them for their professionalism, hard work, and continued efforts to improve this report.

This ACFR reflects our continued commitment to the citizens of Fairfax County, the Board of Supervisors, and all interested readers of this report to provide information in conformance with the highest standards of financial reporting.

Respectfully,

## Report of Independent Auditor

To the Board of Supervisors  
County of Fairfax, Virginia

### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the accompanying financial statements of the Integrated Sewer System (the “System”) an enterprise fund of the County of Fairfax, Virginia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the System’s basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the System as of June 30, 2022, and the changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the County of Fairfax, Virginia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Emphasis of Matter**

As discussed in Note 1a, the financial statements present only the System and do not purport to, and do not, present fairly the financial position of the County of Fairfax, Virginia, as of June 30, 2022, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor’s Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplemental information section, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the Introductory and Statistical Sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

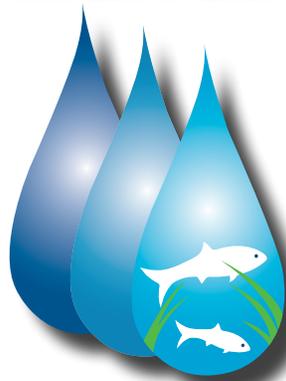

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2022, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

# FAIRFAX COUNTY WASTEWATER MANAGEMENT

*Quality of Water = Quality of Life*

**INTEGRATED SEWER SYSTEM • COUNTY OF FAIRFAX, VIRGINIA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)**  
**June 30, 2022**

This section of the County of Fairfax, Virginia Integrated Sewer System's (the System) Annual Comprehensive Financial Report presents a discussion and analysis of the System's financial performance for the fiscal year that ended on June 30, 2022.

The System is a County of Fairfax, Virginia (the County) business-type activity, which is funded separately from other County activities. The System is accounted for separately in an enterprise fund and it is included in the County's Annual Comprehensive Financial Report.

We encourage readers to consider the information presented here in conjunction with the System's financial statements and notes to the financial statements to enhance their understanding of the System's financial performance.

### **FINANCIAL HIGHLIGHTS**

The System's total net position was \$1,378.1 million as of June 30, 2022, compared to \$1,324.4 million as of June 30, 2021.

Operating revenues of \$231.2 million exceeded operating expenses of \$171.0 million, which include depreciation and amortization of \$67.4 million, by \$60.2 million, for the year ended June 30, 2022. After factoring in non-operating revenues and expenses (availability fees, investment revenue, interest expense, and capital contributions), the result was a \$53.7 million increase in net position for fiscal year 2022.

The System's cash and cash equivalents decreased by \$39.1 million, which is primarily due to the cash outflow of capital expenditure during fiscal year 2022. This decrease compares to a \$200.3 million increase in the prior fiscal year, which was primarily due to the sale of Series 2021A Sewer revenue bonds and Series 2021B Sewer revenue refunding bonds during fiscal year 2021.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The financial section of this annual report consists of (1) the report of independent auditor, (2) this management's discussion and analysis, and (3) the financial statements of the System. The financial statements, which include notes to explain information presented in the financial statements and to provide more detailed data, report information about the System using the economic resources measurement focus and the accrual basis of accounting, which are similar to those used by private sector companies. The following required financial statements provide both short-term and long-term information about the System's overall financial status.

#### **STATEMENT OF NET POSITION**

The Statement of Net Position presents information on all of the System's assets, liabilities, and deferred inflows and outflows of resources, with assets and deferred outflows of resources less liabilities and deferred inflows of resources reported as net position. This statement provides information about the nature and the amounts of investments in resources (assets) and the obligations to the System's creditors (liabilities). It provides a basis for evaluating the capital structure of the System and assessing the liquidity and financial flexibility of the System.

### Statement of Revenues, Expenses, and Changes in Net Position

All of the revenues and expenses for the fiscal year are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the results of the System's operations for the fiscal year and can be used to determine whether the System has successfully recovered all of its expenses through its user fees and charges and its other revenues.

### Statement of Cash Flows

The Statement of Cash Flows reports all cash receipts, cash payments, and changes in cash from operating, investing, and capital and related financing activities. This statement provides information about all the sources and uses of cash and the net change in the balance of cash and cash equivalents for the fiscal year.

## FINANCIAL ANALYSIS OF THE SYSTEM

### Net Position

Net position may serve as a useful indicator of an entity's financial position. The following table presents a summary of the Statements of Net Position for the System as of June 30, 2022 and 2021:

Summary of Net Position As of June 30 (\$ in millions)				
	2022	\$ Change	% Change	2021
Assets:				
Current assets:				
Unrestricted	\$ 221.0	50.7	29.8	\$ 170.3
Restricted	222.2	(64.3)	(22.4)	286.5
Noncurrent assets:				
Capital assets (net)	1,803.0	59.7	3.4	1,743.3
Other non-current assets	1.5	0.7	87.5	0.8
Total assets	<u>2,247.7</u>	<u>46.8</u>	2.1	<u>2,200.9</u>
Deferred outflows of resources	<u>48.5</u>	<u>(2.4)</u>	(4.7)	<u>50.9</u>
Liabilities:				
Current liabilities	75.4	(0.8)	(1.0)	76.2
Noncurrent liabilities	<u>820.7</u>	<u>(21.6)</u>	(2.6)	<u>842.3</u>
Total liabilities	<u>896.1</u>	<u>(22.4)</u>	(2.4)	<u>918.5</u>
Deferred inflows of resources	<u>22.1</u>	<u>13.1</u>	145.6	<u>9.0</u>
Net position:				
Net investment in capital assets	1,181.5	(26.3)	(2.2)	1,207.8
Restricted	48.5	30.6	170.9	17.9
Unrestricted	<u>148.1</u>	<u>49.4</u>	50.1	<u>98.7</u>
Total net position	<u>\$ 1,378.1</u>	<u>53.7</u>	4.1	<u>\$ 1,324.4</u>

Nearly 85.7 percent and 91.2 percent of the System's total net position for the fiscal years 2022 and 2021, respectively, is represented by its investment in capital assets (e.g. treatment plants, sewer lines, and equipment) net of depreciation and amortization, less the outstanding debt that was issued to acquire these assets. The \$13.1 million increase in deferred inflows of resources in fiscal year 2022 is primarily attributable to a \$13.4 million increase in deferred inflows of resources related to the pension and OPEB plans. Deferred inflows of resources related to the pension plan increased by \$12.5 million in fiscal year 2022. See Note 6 to the financial statements for more information related to the pension plan and detailed information on the related deferred inflows of resources. The OPEB plan deferred inflows of resources increased by \$0.9 million in fiscal year 2022. Further information regarding the OPEB plan can be found in Note 7 to the financial statements. Excluding the deferred inflows of resources related to the pension and OPEB plans, the total deferred inflows of resources decreased by

\$0.3 million due to decreases in deferred gain on refunding of debt. The \$2.4 million decrease in deferred outflows of resources is primarily the result of a \$3.0 million decrease in deferred loss on refunding of debt. Although the System's investment in its capital assets is reported net of related debt, it should be noted that the resources to pay this debt must be provided from other resources, since the capital assets themselves are not intended to be used to liquidate these liabilities. The \$53.7 million increase in net position in fiscal year 2022 was primarily the result of revenue exceeding expenses due to increased revenue from sales of service and capital contributions.

The restricted portion of net position represents resources that are subject to external restrictions on how they may be used. Certain assets are restricted for capital projects and for debt service. See Note 4 to the financial statements for detailed information pertaining to the restricted net position.

The unrestricted portion of net position represents resources that are not subject to any external restrictions as to use; hence, they are available for future operations. The \$49.4 million increase of unrestricted net position for fiscal year 2022 was primarily due to increases in operating revenues.

**Changes in Net Position**

The following table summarizes the Statements of Revenues, Expenses, and Changes in Net Position for the System for the fiscal years ended June 30, 2022 and 2021:

<b>Summary of Revenues, Expenses, and Changes in Net Position For the Fiscal Years Ended June 30 (\$ in millions)</b>				
	<b>2022</b>	<b>\$ Change</b>	<b>% Change</b>	<b>2021</b>
Operating revenues - sales of service	\$ 231.2	14.8	6.8	\$ 216.4
Less operating expenses:				
Personnel services	36.7	(3.2)	(8.0)	39.9
Materials and supplies	16.3	(0.6)	(3.6)	16.9
Contractual services and other	50.6	(1.8)	(3.4)	52.4
Depreciation and amortization	67.4	1.8	2.7	65.6
Total operating expenses	171.0	(3.8)	(2.2)	174.8
Operating income	60.2	18.6	44.7	41.6
Nonoperating revenues (expenses):				
Availability fees	16.4	(18.3)	(52.7)	34.7
Investment and other revenues	0.5	(0.3)	(37.5)	0.8
Interest and other expenses	(25.7)	(5.3)	26.0	(20.4)
Total nonoperating revenues (expenses), net	(8.8)	(23.9)	(158.3)	15.1
Income before contributions	51.4	(5.3)	(9.3)	56.7
Capital contributions	2.3	0.8	53.3	1.5
Change in net position	53.7	(4.5)	(7.7)	58.2
Total net position at beginning of year	1,324.4	58.2	4.6	1,266.2
Total net position at end of year	\$ 1,378.1	53.7	4.1	\$ 1,324.4

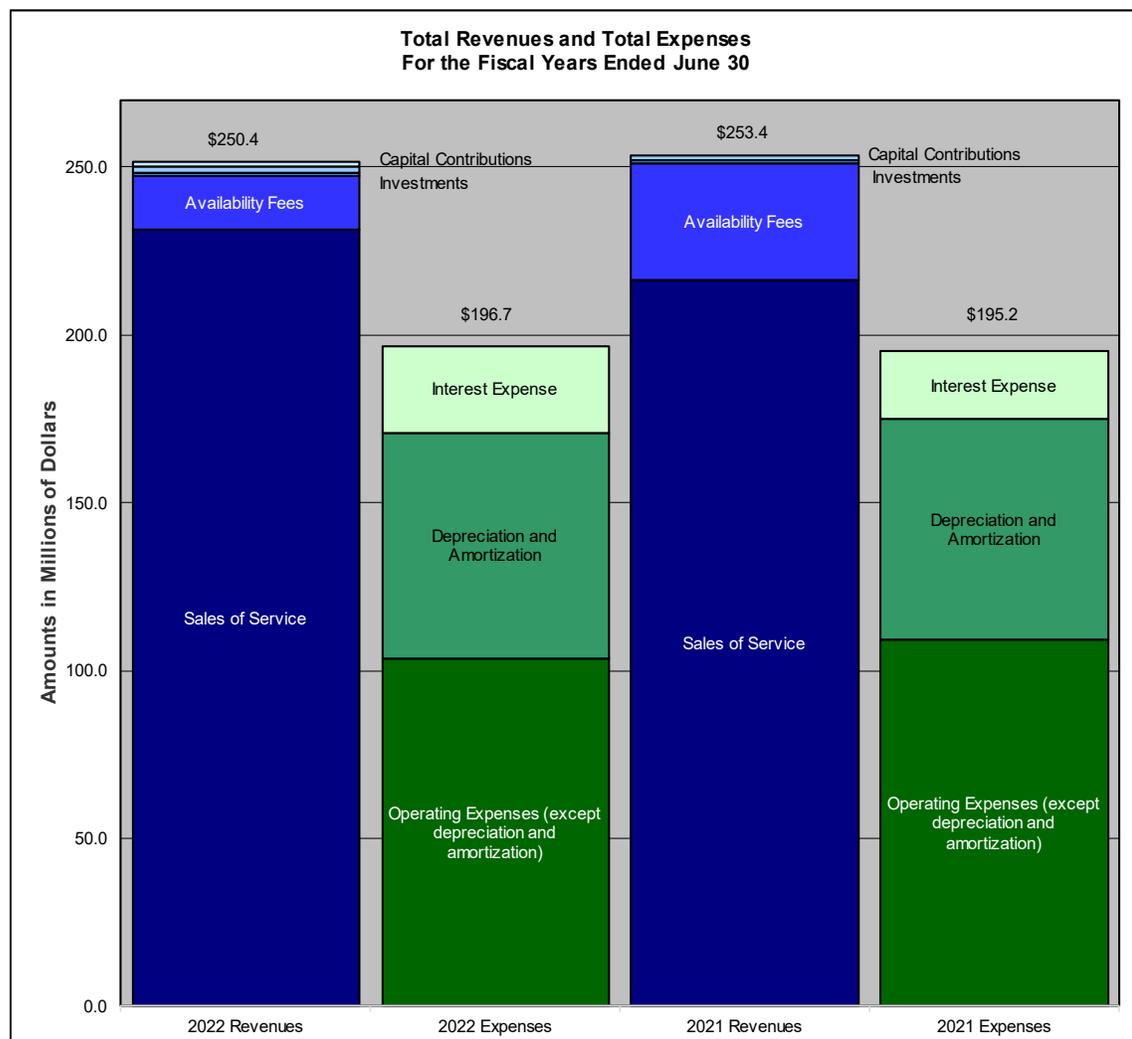

The System's operating revenues consist of volumetric service charges and a service base charge to County users and to neighboring jurisdictions, which reflects a 7.0 percent rate increase during fiscal year 2022. Operating income in fiscal year 2022 increased 44.7 percent compared to prior year, which is consistent with the increase in operating revenues. Operating expenses decreased \$3.8 million in fiscal year 2022. This was primarily due to decreases in personnel and contractual services.

Sewer rates are established by the County Board of Supervisors (the Board) pursuant to Chapter 67.1 of the County Code. Rates and code language are reviewed annually as part of the County's annual strategic planning and budgeting processes and are revised as necessary to ensure that rates generate revenues equitably from new and existing customers, based on the allocation of capital and operating costs, so that growth pays for growth.

System operations and upgrades are funded primarily through sewer service charges to existing customers based on water consumption, in 1,000 gallons, as measured by a water service meter. System expansion and increased treatment capacity is funded primarily through availability fees, one-time charges collected from new sewer customers prior to connection to the System.

The System owns and operates one treatment facility rated at 67.0 million gallons of wastewater per day (MGD), has a 22.1 MGD capacity entitlement in a joint venture facility, and has acquired capacity entitlements totaling 67.5 MGD at five facilities owned by neighboring jurisdictions. The System's share of renovation, upgrade, and expansion costs at non-System-owned facilities is reported as purchased capacity and amortized over ninety-nine years.

A graphic comparison of total revenues, including capital contributions, to total expenses for fiscal years 2022 and 2021 is shown below:

## CAPITAL ASSETS AND LONG-TERM DEBT

### Capital Assets

As of June 30, 2022, the System's gross investment in capital assets amounted to \$3,155.1 million, or \$1,803.0 million after deducting accumulated depreciation and amortization, as summarized in the table below:

<b>Capital Assets As of June 30 (\$ in millions)</b>				
	<b>2022</b>	<b>\$ Change</b>	<b>% Change</b>	<b>2021</b>
Land	\$ 24.5	7.1	40.8	\$ 17.4
Easement	0.7	-	-	0.7
Construction in progress	180.6	(104.6)	(36.7)	285.2
Buildings and improvements	92.1	0.3	0.3	91.8
Infrastructure	1,667.3	205.9	14.1	1,461.4
Equipment and vehicles	17.0	(0.1)	(0.6)	17.1
Purchased capacity	<u>1,172.9</u>	<u>18.1</u>	1.6	<u>1,154.8</u>
Gross capital assets	3,155.1	126.7	4.2	3,028.4
Accumulated depreciation and amortization	<u>(1,352.1)</u>	<u>(67.0)</u>	5.2	<u>(1,285.1)</u>
Total capital assets, net	<u>\$ 1,803.0</u>	<u>59.7</u>	3.4	<u>\$ 1,743.3</u>

The \$126.7 million increase in gross capital assets during fiscal year 2022 reflects the following major capital asset additions, which were funded with available resources:

- The ongoing improvement costs of the System's wastewater treatment facilities at its Noman M. Cole Pollution Control Plant amounted to \$60.9 million.
- The System's share of the ongoing upgrade costs of the Alexandria Sanitation Authority, the District of Columbia's wastewater treatment facilities, and Arlington County's wastewater treatment facilities, which provide services to certain County residents, were \$11.3 million, \$9.1 million, and \$0.4 million, respectively.
- Improvements to sewer lines and pumping stations in the System, other than donations from developers, totaled \$42.7 million.
- Developers contributed sewer lines and manholes valued at \$2.3 million.

Additional information relative to the System's capital assets can be found in Note 5 to the financial statements.

## Long-term Debt

The following is a summary of the System's gross outstanding long-term debt as of June 30, 2022 and 2021:

<b>Gross Outstanding Debt As of June 30 (\$ in millions)</b>				
	<b>2022</b>	<b>\$ Change</b>	<b>% Change</b>	<b>2021</b>
Sewer revenue bonds, net of premiums	\$ 489.2	(11.7)	(2.3)	\$ 500.9
Subordinated bonds:				
EDA revenue bonds	20.0	20.0	100.0	-
Sewer revenue bonds	-	(3.3)	(100.0)	3.3
System's share of UOSA's debt	220.9	(17.1)	(7.2)	238.0
<b>Total outstanding debt</b>	<b>\$ 730.1</b>	<b>(12.1)</b>	<b>(1.6)</b>	<b>\$ 742.2</b>

The \$489.2 million of outstanding sewer revenue bonds and sewer revenue refunding bonds, issued by the System in 2021, 2017, 2016, and 2014, are currently rated AAA by Fitch and S&P and AAA by Moody's. These credit ratings are higher than those obtained by most sewer authorities and they have enabled the County to sell bonds on behalf of the System at lower interest rates, thereby achieving savings throughout the life of the bonds.

The System did not issue any Sewer revenue bonds or Sewer revenue refunding bonds in fiscal year 2022.

In November 2021, the Fairfax County Economic Development Authority (EDA) issued \$74.6 million of Series 2021A EDA Revenue Bonds to fund the costs of construction of a joint Stormwater/Wastewater facility and to pay the issuance costs of the Series 2021A bonds. Of the total par value in the amount of \$74.6 million, Wastewater's component share is \$20.0 million.

In June 2002, the System issued 20-year subordinated sewer revenue bonds in the amount of \$50 million at an interest rate of 3.8 percent to the Virginia Water Facilities Revolving Fund, acting by and through the Virginia Resources Authority (VRA), to fund its share of the ongoing expansion costs of the Alexandria Renew Enterprises' (AlexRenew) wastewater treatment facilities, which provide service to certain County residents. In September 2012, the System executed a rate reduction agreement with VRA, reducing the interest rate on this bond to 2.4 percent. In May 2016, the System executed another rate reduction agreement with VRA, reducing the interest rate on this bond to 0.95 percent. In February 2022, the June 2002 subordinated sewer revenue bonds reached final maturity. As of June 30, 2022, there was no outstanding balance for the VRA subordinated sewer revenue bonds.

The Upper Occoquan Service Authority (UOSA), a joint venture that operates a regional sewage facility, issued regional sewer system revenue refunding bonds in November 2013, May 2013, November 2004, and February 2007 to advance refund certain of its outstanding bonds. In December 2010 and 2007, UOSA issued regional sewer system revenue bonds to fund certain capital improvements. In fiscal year 2012, UOSA entered into VRA loans 2011A and 2011B to fund costs related to the Energy Service project and Phase 1 of the Nutrient Compliance Improvement project (P1NR), respectively. In fiscal year 2015, UOSA advance refunded a portion of the total Series 2007A and 2007B bonds. Of the outstanding balance, \$93,175,291 was advance refunded into the Series 2014 bonds. In fiscal year 2016, UOSA advance refunded the \$19,015,689 remaining outstanding balance of the Series 2007B

bonds into the Series 2016B bonds. In fiscal year 2020, UOSA issued regional sewer system revenue bonds to fund improvements to UOSA's regional advanced wastewater treatment system. In fiscal year 2021, UOSA advance refunded the \$91,146,092 remaining outstanding balance of the Series 2014 bonds into the Series 2020 bonds. As of June 30, 2022, the System's share of UOSA's outstanding debt was \$220.9 million.

The System is required by the covenants of the 2009 General Bond Resolution to generate net revenues at least equal to the debt service on its sewer revenue bonds each year. Net revenues are defined as all revenues, except grants and contributed assets, less operating expenses, except depreciation and amortization. The ratio of net revenues to debt service for the senior sewer revenue bonds was 4.33 and 4.30 for fiscal years 2022 and 2021, respectively. The fiscal year 2022 ratio is more favorable than the fiscal year 2021 ratio. Taking all long-term debt into account, the ratio is 2.43 and 2.16 for fiscal years 2022 and 2021, respectively. The fiscal year 2022 ratio is more favorable than the fiscal year 2021 ratio.

Additional information related to the debt coverage ratios is contained in Table 3.2 of the statistical section of this report. Additional information relative to the System's long-term debt can be found in Note 8 to the financial statements.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The following factors, decisions, and conditions are expected to have a significant effect on the financial position and the results of operations for fiscal year 2023 and beyond:

The sewer service charge rate to System users will increase from \$7.72 to \$8.09 per 1,000 gallons of water consumption and the sewer service base charge will increase from \$36.54 to \$40.14 per quarter for residential customers for fiscal year 2023. Subsequent rate increases for the sewer service charge to \$8.41, \$8.73, \$9.21, \$9.67, along with increases to the sewer service base charge to \$44.43, \$49.09, \$51.79, and \$54.38 for fiscal years 2024, 2025, 2026, and 2027, respectively, have also been approved. The base charge for commercial customers is based on the meter size.

Sewer availability fees will increase in fiscal year 2023. Rates for single family homes will increase from \$8,507 to \$8,592, rates for townhouses and apartments will increase from \$6,806 to \$6,874, and rates for hotels and motels will increase from \$2,127 to \$2,148. Nonresidential rates will increase from \$425 per fixture unit to \$430 per fixture unit. Subsequent rate increases for availability fees have been adopted for fiscal years 2024, 2025, 2026, and 2027. The individual rate for each year can be found in Board Item attachments 1a and 1b. Unit sales of sewer availability taps averaged 61 per month during the first quarter of fiscal year 2022, compared to 148 per month during the comparable period of fiscal year 2021.

Fiscal year 2022 revenue decreased approximately 1.5% mainly as a result of a combination of a 52.9% decrease in Availability Charges and a 7.3% increase in Sewer Service Charge. Revenue from Availability Charges is directly linked to construction in the county and can fluctuate from one year to the next. The large percentage decrease in Availability Charges in fiscal year 2022 is a result of amount collected in fiscal year 2021 being the most collected in a single year. Management expects Availability Charges to stabilize in fiscal year 2023.

Delinquent accounts decreased to under 2.0 percent in fiscal year 2022, partially due to the use of the American Rescue Plan ACT (ARPA) funds to reduce outstanding delinquent account balances. This relatively low delinquency rate did not have a significant financial impact on the System. The delinquency rate is expected to be relatively stable in future years.

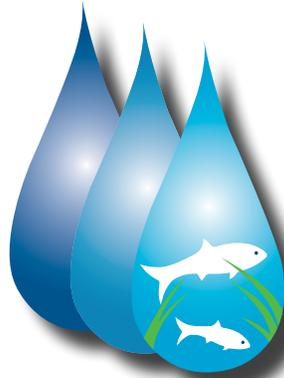

Interest rates on the County's investments through the first quarter of fiscal year 2023 have been approximately 2.1 percent, an increase from fiscal year 2022 rates.

The System's adopted budget for operating expenses, excluding depreciation and amortization, for fiscal year 2023 is \$119.4 million. The System's adopted budget for capital asset acquisitions for fiscal year 2023 is \$89.0 million, to be funded with available resources and bond proceeds. This budget includes \$52.0 million for the rehabilitation and renovation of the System's sewer lines, \$37.0 million for upgrades to the county-owned treatment plant, to be funded with available resources. This budget also includes \$72.8 million for renovations to the county-owned treatment plant, \$18.2 million for upgrades to the county-owned treatment plant, and \$20.0 million, \$1.5 million, and \$23.0 million for the System's share of the upgrade costs of the Alexandria Renew Enterprises, Arlington, and District of Columbia wastewater treatment facilities, respectively, to be funded with bond proceeds.

### **CONTACTING THE SYSTEM'S FINANCIAL MANAGEMENT**

This financial report is designed to provide the System's customers, investors, and creditors with a general overview of the System's finances and to demonstrate the System's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the County of Fairfax, Virginia, Department of Finance, 12000 Government Center Parkway, Fairfax, Virginia, 22035.

# FAIRFAX COUNTY WASTEWATER MANAGEMENT

*Quality of Water = Quality of Life*

---

**INTEGRATED SEWER SYSTEM • COUNTY OF FAIRFAX, VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***(a) Basis of Presentation***

The County of Fairfax, Virginia Integrated Sewer System (the System) is an enterprise fund of the County of Fairfax, Virginia (the County), and provides sewer services to approximately 1.0 million residents through a County-wide sewer system of over 3,300 miles of sewer lines. The sewer service area, approximately 234 square miles, is defined and controlled through the County of Fairfax Board of Supervisors. The System is governed by the Board and managed and operated separately as the Wastewater Management Program, one of five major activities of the County's Department of Public Works and Environmental Services.

As a County business-type activity, System financial information is separately accounted for in an enterprise fund and is included in the County's Annual Comprehensive Financial Report (ACFR).

These financial statements are only of the operations of the System and are not intended to present the financial position, changes in financial position, or, where applicable, cash flows of the County.

***(b) Basis of Accounting***

The System is required to recover the costs of providing services, including capital costs, through user charges. Accordingly, the System uses enterprise fund accounting, an economic resources measurement focus, and the accrual basis of accounting. Consequently, revenues are recognized when earned and expenses are recorded as incurred. The System defines operating revenues and expenses as those directly related to providing sewer services. Operating revenues consist of charges to System users. Operating expenses include personnel, materials and supplies, services purchased from other local jurisdictions, and depreciation and amortization of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. These include sewer availability fees, bond issue costs, gain (loss) on disposal of capital assets, investment earnings, and interest on outstanding debt.

***(c) Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (the GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

***(d) Tax Status***

The System, as part of a local government, is not subject to federal, state, or local income taxes and, accordingly, no provision for income taxes is made.

***(e) Sewer Service Charges***

The major sources of revenue for the System are sales to existing customers for continuing sewer service. Customers are charged for sewer service based on metered water usage in addition to a base

charge, which is determined by meter size. Sewer service charges are designed to recover the costs of operation and maintenance of the System as well as debt service and capital project costs attributable to supporting or improving wastewater treatment services to the System's customers. Sewer service charges are recorded as operating revenue.

***(f) Unbilled Service Charges***

An estimated amount has been recorded for services rendered but not yet billed as of the close of the fiscal year. This estimated receivable is calculated by prorating water consumption and billings for certain prior months.

***(g) Availability Charges***

New customers connecting to the System are required to pay an availability fee before obtaining a building permit in the County. Availability fees are used to recover the construction and financing costs associated with expanding System capacity. Availability fees are reported as nonoperating revenue.

In fiscal year 2015, a payment plan for an availability charge was established with a customer. This payment arrangement necessitated presenting the accounts receivables due beyond one year, as a long-term receivable.

***(h) Cash and Investments on Deposit with the County***

The System maintains the majority of its available cash in a cash and investment pool administered by the County. Such amounts are considered to be cash equivalents for purposes of the Statement of Cash Flows. To optimize investment returns, the System's funds are invested together with all other County pooled funds, all of which are fully insured or collateralized. The County allocates, on a monthly basis, any investment earnings based on the System's average balance in pooled cash and investments, less an administrative charge.

***(i) Flow Assumption for Restricted Assets***

Restricted assets are liquid assets which have third-party limitations on their use. When both restricted and unrestricted assets are available for use, it is the System's policy to use restricted resources first and then unrestricted assets when needed. See Note 4 for additional information regarding restricted assets.

***(j) Investments***

Pooled investments and investments held by fiscal agent consist primarily of U.S. government securities that mature in less than one year from the date of purchase and discount government-sponsored enterprise (GSE) securities, which are stated at amortized cost unless otherwise noted.

***(k) Inventories***

Inventories are carried at cost using an average unit cost method. The System's inventories consist of operating supplies and certain system replacement parts.

***(l) Capital Assets***

Capital assets that individually cost \$10,000 or more with a useful life of more than one year are capitalized and recorded at cost. Contributed capital assets are recorded at their estimated acquisition value on the date of donation. Capital assets are depreciated or amortized over their estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Infrastructure	50 years
Buildings	20-50 years
Purchased capacity	30-99 years
Improvements	15-25 years
Equipment	5-20 years
Vehicles	5-20 years

For constructed assets, all costs necessary to bring such assets to the condition and location necessary for their intended use are initially treated as construction in progress and, subsequently, as buildings, improvements, or purchased capacity once the assets are substantially complete. Depreciation and amortization on constructed assets begin when the assets are substantially ready for their intended use.

***(m) Retirement and Other Postemployment Benefits Plans***

Employees of the System participate in the Fairfax County Employees' Retirement System (Retirement plan) and the Fairfax County Other Postemployment Benefits (OPEB) plan. The net pension liability, net OPEB liability, and associated deferred outflows of resources and deferred inflows of resources are reported with a one-year lag when compared with the fiduciary net positions as reported by the retirement plan and OPEB plan. Employer contributions to the retirement plan and OPEB plan during the current fiscal year are reflected as deferred outflows of resources which will impact the net pension liability and net OPEB liability of the subsequent year. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans. Detailed information about the retirement plan is found in Note 6 and detailed information about the OPEB plan is found in Note 7.

***(n) Compensated Absences***

Employees earn vacation pay based on a prescribed formula, which allows employees with less than 10 years of service to accumulate a maximum of 240 hours and employees with 10 years or more of service to accumulate a maximum of 320 hours of vacation benefits as of the end of each calendar year. In addition, employees may accrue compensatory leave for hours worked in excess of their scheduled hours. Compensatory leave in excess of 240 hours at the end of the calendar year is forfeited. The current pay rate and certain employer-related fringe benefits are used to calculate the year end accruals. At June 30, 2022, the System accrued \$3,151,845 for such compensated absences.

***(o) Intergovernmental Agreements***

The County has entered into several intergovernmental agreements for the purpose of sharing sewage flow and treatment facility costs. The payments to other governmental units made to reimburse operating costs are reported as expenses in the year incurred. The interest payments for debt service are reported as nonoperating expenses. The payments made for construction costs for facility capacity expansions are reported as purchased capacity (Notes 5 and 9). Through these capital payments, the System has exclusive entitlements to treatment capacities at other governmental sewage treatment facilities.

**(2) DUE FROM OTHER GOVERNMENTAL ENTITIES**

Amounts due from other governmental entities consist of customer service charges, which are billed and collected by Fairfax Water and other local water authorities, and sales of sewer services to other jurisdictions which utilize the System’s sewage treatment and collection facilities.

The Board appoints the members of the Board of Fairfax Water; however, the County’s accountability does not extend beyond making the appointments. During fiscal year 2022, Fairfax Water collected \$219.8 million on behalf of the System. As of June 30, 2022, the System had receivables of \$49.0 million due from Fairfax Water and \$11.2 million due from other governmental entities.

**(3) DEPOSITS AND INVESTMENTS**

The System’s available cash is invested in the County’s cash and investment pool. The County maintains an investment policy, the overall objectives of which are the preservation of capital and the protection of investment principal; maintenance of sufficient liquidity to meet operating requirements; conformance with federal, state, and other legal requirements; diversification to avoid incurring unreasonable risks regarding specific security types or individual financial institutions; and attainment of a market rate of return. Oversight of investment activity is the responsibility of the Investment Committee, which is comprised of the chief financial officer and certain key management and investment staff.

The Code of Virginia (the Code) authorizes the County and the System to purchase the following types of investments:

- Commercial paper
- U.S. Treasury and agency securities
- U.S. Treasury strips
- Certificates of deposits and bank notes
- Insured deposits
- Demand deposit accounts
- Money market funds
- Bankers’ acceptances
- Repurchase agreements
- Medium term corporate notes
- Local government investment pool (LGIP)
- Asset-backed securities
- Hedged debt obligations of sovereign governments
- Securities lending programs
- Obligations of the Asian Development Bank
- Obligations of the African Development Bank
- Obligations of the International Bank for Reconstruction and Development
- Obligations of the Commonwealth of Virginia and its instrumentalities
- Obligations of counties, cities, towns, and other public bodies located within the Commonwealth of Virginia
- Obligations of state and local government units located within other states
- Savings accounts or time deposits in any bank or savings institution within the Commonwealth that complies with the Code
- Qualified investment pools
- Supranationals

However, the County's investment policy precludes the investment of pooled funds in derivative securities, reverse repurchase agreements, security lending programs, asset-backed securities, hedged debt, obligations of sovereign governments, obligations of the Commonwealth and its instrumentalities, obligations of counties, cities, towns, and other public bodies located within the Commonwealth, and obligations of state and local government units located within other states.

**(a) Interest Rate Risk**

The System's investment in the pool is covered by the County's policy to minimize the risk that the fair value of securities in its portfolio will fall due to changes in market interest rates. To achieve this minimization of risk, the County structures the pooled investment portfolio so that sufficient securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Pooled investments that are purchased to meet liquidity needs shall have a target weighted average maturity of 90 days or less. All other pooled funds are invested primarily in shorter-term securities with a maximum of five years or less from settlement date.

**(b) Credit Risk**

It is the County's policy to minimize the risk of loss due to the failure of an issuer or other counter party to an investment to fulfill its obligations. The County pre-qualifies financial institutions, broker-dealers, intermediaries, and advisers with which the County does business. Based on the County's investment policy, the pooled investments are limited to relatively low-risk types of securities and are diversified so that potential losses on individual securities will be minimized. Also, new investments shall not be made in securities that are listed on Moody's Watchlist or Standards & Poor's, Inc. (S&P) Credit Watch with a short term negative rating. Moody's, S&P, and Fitch Ratings, Inc. (Fitch) are nationally recognized statistical rating organizations (NRSROs) serving investors, regulators, and issuers. The policy specifies the following acceptable credit ratings for specific types of investments in the pooled portfolio:

- U.S. government agency and GSE instruments should have a rating of at least P-1 by Moody's and A-1 by S&P. In those instances when an instrument does not have a rating, a thorough credit and financial analysis will be conducted by County investment staff.
- Prime quality commercial paper must be rated by at least two of the following: Moody's, with a minimum rating of Prime 1; S&P, with a minimum rating of A-1; Fitch, with a minimum rating of F-1; or by Duff and Phelps, Inc., with a minimum rating of D-1.
- Mutual funds must have a rating of AAA or better by S&P, Moody's, or another nationally recognized rating agency.
- Negotiable certificates of deposit must have a rating of at least A-1 by S&P and P-1 by Moody's if less than one year and a rating of AA by S&P if more than one year.
- Bankers' acceptances must have a rating of at least A-1 by S&P and P-1 by Moody's.
- Commonwealth's LGIP bond funds must have a rating of AAA by S&P and the Virginia Investment Pool Stable NAV Liquidity Pool must have a rating of AAAM by S&P.
- Corporate notes must have a rating of at least Aa by Moody's and a rating of at least AA by S&P.

- Supranationals must have a rating of AAA or better by S&P or Moody's.

The portfolio weighted average maturity for the County's entire cash and investment pool was 461 days as of June 30, 2022. The County's portfolio, as of June 30, 2022, consisted of investments with credit quality ratings as follows:

<u>AA</u>	<u>A-1</u>	<u>AAA-m</u>	<u>Unrated</u>	<u>Total</u>
34.9%	34.3%	24.7%	6.1%	100.0%

**(c) Concentration of Credit Risk**

The County's investment policy sets the following limits for the types of securities held in its pooled investment portfolio:

U.S. Treasury securities and agencies	100%	maximum
Negotiable certificates of deposit	40%	maximum
Banker's acceptances	35%	maximum
Commercial paper	35%	maximum
Repurchase agreements	30%	maximum
Mutual funds	30%	maximum
Virginia Investment Pool - LGIP daily liquidity	30%	maximum
Corporate notes	25%	maximum
Non-negotiable certificates of deposit	25%	maximum
Virginia Investment Pool - LGIP bond fund	25%	maximum
Insured certificates of deposit	15%	maximum
Bank demand deposit	10%	maximum
Supranationals	10%	maximum

In addition, not more than 5 percent of the total pooled funds available for investment at the time of purchase may be invested in any one issuing or guaranteeing corporation for commercial paper, corporate notes, negotiable certificates of deposits, bankers' acceptances, and supranationals.

**(d) Custodial Credit Risk**

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the Virginia Security for Public Deposits Act (the Act), all of the County's deposits are covered by federal depository insurance or collateralized in accordance with the Act, which provides for the pooling of collateral pledged by financial institutions with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover a loss, additional amounts are assessed on a pro rata basis to the members of the pool. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by participating financial institutions. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance. Therefore, funds deposited in accordance with the requirements of the Act are considered to be fully insured.

For investments, custodial credit risk is the risk that the County will not be able to recover the value of

its investments or collateral securities that are in the possession of an outside party in the event of the failure of a counter party. Per policy, all of the pooled investments purchased by the County are insured, collateralized, registered, or are securities held by their agent in the County's name.

Additional information, including information by investment type related to the interest rate risk and the credit risk pertaining to the entire cash and investment pool, can be found in the County's ACFR for the fiscal year ended June 30, 2022.

**(e) Fair Value Measurement**

The System's money market cash and cash equivalents are held by the County and are reported at amortized cost, which approximates fair value. The reporting entity categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the source and type of information used to determine the fair value of the asset. Level 1 information is unadjusted quoted prices for identical instruments in accessible active markets. Level 2 information is quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, or quoted prices that are observable, either directly or indirectly from a source other than an active market. Level 3 includes unobservable information to arrive at a valuation. As of June 30, 2022, the System's total investments were \$55,742,580 carried at amortized cost.

**(4) RESTRICTED ASSETS AND RESTRICTED NET POSITION**

As of June 30, 2022, the System had restricted cash and investments of \$222,214,832 for certain purposes in order to manage its funds in accordance with the 1985 General Bond Resolution (the Resolution), as modified through July 2009. The Resolution requires the System to set aside or restrict funds for certain purposes including sewer construction, extensions and improvements, establishing a long-term debt service reserve, and funding current debt service requirements. The System's restricted assets and restricted net position as of June 30, 2022 are as follows:

	<b>2022</b>
Assets restricted for:	
Capital projects	<u>\$ 141,372,177</u>
Long-term debt service requirements:	
Sewer revenue bonds:	
Series 2014, 2016A, 2017, 2021A, and 2021B	<u>32,319,929</u>
Total long-term debt service requirements	<u>32,319,929</u>
Current debt service requirements	<u>48,522,726</u>
Total restricted assets	222,214,832
Less related debt:	
Long-term debt service requirements	(32,319,929)
Long-term debt related to unspent bond proceeds	<u>(141,372,177)</u>
Total restricted net position	<u>\$ 48,522,726</u>

**(5) CAPITAL ASSETS**

Changes in capital assets for the fiscal year ended June 30, 2022 are as follows:

	<b>Balances June 30, 2021</b>	<b>Increases</b>	<b>Decreases</b>	<b>Balances June 30, 2022</b>
Capital assets:				
Non-depreciable:				
Land	\$ 17,407,323	\$ 7,069,731	\$ -	\$ 24,477,054
Easement	656,441	43,415	-	699,856
Construction in progress	285,175,888	76,654,322	(181,228,212)	180,601,998
Depreciable and amortizable:				
Buildings and improvements	91,850,481	249,271	-	92,099,752
Infrastructure	1,461,362,424	205,980,686	-	1,667,343,110
Equipment and vehicles	17,164,967	202,562	(418,603)	16,948,926
Purchased capacity	1,154,792,912	20,737,917	(2,626,790)	1,172,904,039
Total capital assets	<u>3,028,410,436</u>	<u>310,937,904</u>	<u>(184,273,605)</u>	<u>3,155,074,735</u>
Accumulated depreciation and amortization for:

Infrastructure	(724,522,610)	(33,472,224)	-	(757,994,834)
Equipment and vehicles	(12,278,108)	(1,181,111)	418,603	(13,040,616)
Purchased capacity	(491,765,757)	(30,540,358)	-	(522,306,115)
Total accumulated depreciation and amortization	<u>(1,285,062,530)</u>	<u>(67,411,472)</u>	<u>418,603</u>	<u>(1,352,055,398)</u>
Total capital assets, net	<u>\$ 1,743,347,906</u>	<u>\$ 243,526,432</u>	<u>\$ (183,855,002)</u>	<u>\$ 1,803,019,337</u>

Changes in purchased capacity, net of accumulated amortization, for the year ended June 30, 2022, in relation to each jurisdiction, are as follows:

	<b>Balances June 30, 2021</b>	<b>Additions (net of disposals)</b>	<b>Amortization</b>	<b>Balances June 30, 2022</b>
Purchased capacity, net:				
Blue Plains	\$ 220,075,878	\$ 9,081,367	\$ (7,044,168)	\$ 222,113,077
UOSA	152,475,969	(2,626,790)	(10,616,418)	139,232,761
Alexandria Renew Enterprises	243,981,763	11,282,386	(10,519,309)	244,744,840
Arlington County	32,693,397	374,164	(1,655,256)	31,412,305
Prince William County Service Authority	304,000	-	(30,400)	273,600
Loudoun Water	13,496,148	-	(674,807)	12,821,341
Total purchased capacity, net	<u>\$ 663,027,155</u>	<u>\$ 18,111,127</u>	<u>\$ (30,540,358)</u>	<u>\$ 650,597,924</u>

**(6) RETIREMENT PLAN*****(a) Plan Description***

Employees of the System are provided with pensions through the Fairfax County Employees' Retirement System (ERS), a single-employer defined benefit pension plan, presented as a cost-sharing plan in the System's financial statements, which covers full-time and certain part-time employees of Fairfax County and its component units who are not covered by other plans of the County or the Virginia Retirement System.

***(b) Benefits Provided***

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. Members who were hired before January 1, 2013 may elect to join Plan A or Plan B, and members who were hired on or after January 1, 2013 may elect to join Plan C or Plan D. To be eligible for normal retirement, an individual must meet the following criteria: (a) attain the age of 65 with five years of creditable service, (b) for Plans A and B, attain the age of 50 with age plus years of creditable service being greater than or equal to 80, or (c) for Plans C and D, attain the age of 55 with age plus years of service being greater than or equal to 85. The normal retirement benefit is calculated using average final compensation (i.e., the highest 78 consecutive two week pay periods or the highest 36 consecutive monthly pay periods) and years (or partial years) of creditable service at date of termination. In addition, if normal retirement occurs before Social Security benefits are scheduled to begin, an additional monthly benefit is paid to retirees. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those who commenced employment on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave toward service credit for retirement or Deferred Retirement Option Program (DROP) entry. The benefit for early retirement is actuarially reduced and payable at early termination.

Effective July 1, 2005, DROP was established for eligible members of the ERS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0% per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual cost-of-living adjustment provided for retirees.

***(c) Funding Policy***

All contribution requirements for ERS are established and may be amended by County ordinances, including member contribution rates. Plan A and Plan C require member contributions of 4.00 percent of compensation up to the wage base and 5.33 percent of compensation in excess of the Social Security wage base. Plan B, Plan D, and Plan E require member contributions of 5.33 percent of compensation.

The County is required to contribute at an actuarially determined rate. The rate for the year ended June 30, 2022, was 28.88 percent of annual covered payroll. The employer contribution made during the measurement period of the liability, for fiscal year 2021 determined contribution, was \$5,387,683. This is prior year's subsequent period contribution. For fiscal year 2022, employer contribution, a deferred outflow of resources as of June 30, 2022, was \$5,510,229. This is current year's subsequent period contribution.

**(d) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the System reported a liability of \$27,987,014 for its proportionate share of the net pension liability. The ERS calculated total pension liability was based on participant data collected as of December 31, 2020 and an actuarial valuation as of June 30, 2021, using the entry age actuarial cost method, with a measurement date of June 30, 2021. At June 30, 2021, the System’s proportion was 2.36 percent, an increase of 0.11 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the System recognized pension expense of \$4,355,792. As of June 30, 2022, the System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 473,265	\$ (902,547)
Changes of assumptions	4,421,253	-
Net difference between projected and actual earning on pension plan investments	-	(12,147,898)
Change in proportion applicable to the System	2,308,644	(104,348)
System contributions subsequent to the measurement date	5,510,229	-
<b>Total</b>	<b>\$ 12,713,391</b>	<b>\$ (13,154,793)</b>

Deferred outflows of resources in the amount of \$5,510,229 related to pensions resulting from System contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year ended June 30: Measurement Date June 30 of Prior Year	
2023	\$ (942,835)
2024	(1,032,389)
2025	(1,449,634)
2026	(2,526,773)
<u>\$</u>	<u>(5,951,631)</u>

**(e) Actuarial Assumptions**

The reported total pension liability (TPL) calculation was based on participant data collected as of December 31, 2020 and an actuarial valuation as of June 30, 2021, using the entry age actuarial cost method with a measurement date of June 30, 2021. Significant actuarial assumptions used in the valuation include the following:

**Actuarial Assumptions**

Inflation	2.25%
Salary increases, including inflation	2.25% plus merit
Investment rate of return, net of plan investment expenses	6.75%
Projected period of unfunded benefit payments	None
Mortality	Health and Disabled Annuity PubG-2010 Combined Mortality projected using MP-2020

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the ERS’s target asset allocation as of June 30, 2021, are summarized below:

**Long-Term Expected Real Rate of Return/Target Allocation**

Asset Class	Long-Term Expected Real Rate of Return	Target Allocation*
US Leverage Cost	1.9%	-35.0%
Non-US Leverage Cost	1.1%	-26.0%
US Large-Cap Equity	7.7%	11.0%
US Small/Mid-Cap Equity	8.7%	3.0%
Non-US Developed Equity (USD Hedge)	8.3%	6.0%
Non-US Developed Small-Cap Equity	9.3%	3.0%
Emerging Market Equity	12.5%	3.0%
Global Equity	8.6%	5.0%
Private Equity - Growth	14.6%	1.0%
Private Equity - Venture	20.8%	1.0%
Private Equity	13.2%	2.0%
US TIPS	2.3%	16.0%
US Treasury Bond	2.1%	-3.0%
US Mortgage-Backed Securities	2.5%	2.0%
US High Yield Corporate Bond	5.7%	4.0%
Emerging Market External Debt	5.3%	4.0%
Emerging Market Local Currency Debt	6.0%	2.0%
Non-US Government Bond	2.2%	2.0%
Non-US Government Bond (USD Hedge)	2.0%	2.0%
Non-US Inflation-Linked Bond (USD Hedge)	1.3%	12.0%
Private Debt - Credit Opportunities	8.0%	6.0%
Private Debt - Distressed	8.8%	4.0%
Private Debt - Direct Lending	8.1%	1.0%
US Long-Term Treasury Bond (10-30 Year)	2.6%	5.0%
20+ Year US Treasury STRIPS	3.9%	3.0%
US High Yield Securitized Bond	5.1%	2.0%
US High Yield Collateralized Loan Obligation	6.3%	4.0%
10 Year US Treasury Bond	2.6%	8.0%
10 Year Non-US Government Bond (USD Hedge)	1.2%	18.0%
Commodity Futures	5.0%	7.0%
Public Real Assets (Multi-Asset)	6.0%	2.0%
US REIT	9.0%	5.0%
Gold	5.1%	3.0%
Core Real Estate	6.7%	1.0%
Private Real Assets - Infrastructure	7.4%	4.0%
Hedge Fund - Macro	5.1%	8.0%
Hedge Fund - Credit	5.8%	4.0%
Hedge Fund	5.6%	3.0%

\*Target totals may exceed 100% due to futures and other derivatives

**(f) Discount Rate**

The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that County contributions will be made according to the County’s stated policy. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A schedule of funding progress can be found in the required supplementary information section of the report.

**(g) Sensitivity of the System’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the System’s proportionate share of the net pension liability calculated using the discount rate of 6.75 percent, as well as what the System’s share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

**Sensitivity of Net Pension Liability to Changes in Discount Rate**

	1% Decrease 5.75%	Current Discount Rate 6.75%	1% Increase 7.75%
Total pension liability	\$ 167,719,660	\$ 149,675,476	\$ 134,574,068
Plan fiduciary net position	(121,688,462)	(121,688,462)	(121,688,462)
Net pension liability	<u>\$ 46,031,198</u>	<u>\$ 27,987,014</u>	<u>\$ 12,885,606</u>
Plan fiduciary net position as a percentage of the total pension liability	72.6%	81.3%	90.4%

**(h) Pension Plan Fiduciary Net Position**

The retirement system is considered a part of the County’s reporting entity, and the retirement system’s financial statements are included in the County’s basic financial statements as a trust fund.

Information concerning ERS as a whole, including the pension plan’s fiduciary net position, is available in the County ACFR for the fiscal year ended June 30, 2022. Additionally, the ERS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Employees’ Retirement System, 12015 Lee Jackson Memorial Highway, Suite 350, Fairfax, Virginia 22033, or by calling (703) 279-8200. The reports are also available at the following links:

ERS: <https://www.fairfaxcounty.gov/retirement/financial-publications>

County: <https://www.fairfaxcounty.gov/finance/financialreporting/annualcomprehensivefinancialreport>

**(7) OTHER POSTEMPLOYMENT BENEFITS**

The Fairfax County OPEB Plan (the OPEB Plan) is a single-employer defined benefit plan administered by the County, presented as a cost-sharing plan in the System’s financial statements. The Plan provides eligible retirees and their spouses the opportunity to continue participation in medical, dental, vision, and life insurance benefits. The Plan benefits correspond with the benefits available to active employees. The benefit provisions of the Plan are established, and may be amended, by the Board. Fiduciary oversight of OPEB and deferred compensation is provided by the members of the Local Finance Board. The members of the Local Finance Board are the CFO/Director of Management and Budget, the Director of Finance, the Director of Human Resources, and the Executive Director of the Retirement Agency. The Plan does not issue a stand-alone financial report. Financial information about the Plan and its fiduciary net position is available in the County’s ACFR, available online at the address stated above.

In order to participate in the Plan, an employee must meet retirement criteria for the ERS. The retiree must have the applicable benefit(s) in place as an active employee and must maintain continuous participation in the benefit plan into retirement. Upon retirement, the County no longer contributes to the benefit premium payments of the participant and the participant becomes responsible for 100 percent of the applicable premiums, less any applicable subsidies.

Beginning in fiscal year 2006, the amount of monthly medical subsidy provided by the County is based on the participant's years of service, and ranges from \$30 per month to \$220 per month. Employees who retired prior to July 1, 2003 are eligible for the greater of the amount based on the current subsidy structure or the amount calculated based on the subsidy structure in place prior to July 2003. In addition, the Board has established a program to subsidize the continuation of term life insurance at reduced coverage amounts for retirees. Retirees generally pay for 50 percent of their coverage amount at age-banded premium rates, with the County incurring the balance of the cost. In order to receive these subsidies, retirees must be 55 years or older and have a minimum of five years of service credit. If participation in any of the benefit areas is discontinued, eligibility is lost, and a retiree may not re-enroll into the Plan's benefits. Consequently, all inactive employees are considered to be receiving benefits of the Plan.

Contributions to the Plan are made by appropriation from the Board, based on an actuarially determined amount. The employer contribution made during the measurement period of the liability was \$435,536. The System's contribution to the Plan for fiscal year 2022 was \$446,602. Plan members are not required to contribute to the OPEB trust fund.

**(a) Actuarial Assumptions**

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, rolled forward to June 30, 2021, using the following actuarial assumptions:

Actuarial cost method	Entry age normal
Asset valuation method	Market value of assets
Investment rate of return	7.00%, net of OPEB plan investment expense, including inflation.
Retirement age	Varies by age and pension plan.
Mortality	Pub-2010, "General" classification, Employees & Healthy Annuitant mortality table, projected using scale MP-2020, sex-distinct. Disabled mortality table Pub-2010, "General" classification, Disabled Retirement mortality table, projected using scale MP-2020, sex distinct.
Healthcare cost trend rate	6.9% - 11.6%, decreasing to 4.5%

The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2020.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan’s target allocations as of June 30, 2021, are as follows:

**Long-Term Real Expected Rate of Return/Target Allocation**

Asset Class	Long-Term Expected Real Rate of Return	Target Allocation
Domestic Equity (Large Cap)	6.30%	27.92%
Domestic Equity (Small Cap)	6.80%	11.61%
International Equity	7.00%	13.68%
Emerging Markets Equity	7.50%	5.59%
Long / Short Equity	6.40%	5.82%
Core US Fixed Income	2.50%	4.14%
Core Plus US Fixed Income	2.90%	14.47%
Absolute Return Fixed Income	2.00%	3.51%
Real Estate	5.50%	8.94%
Private Equity	8.70%	3.66%

There are no concentrations in any one organization that represents 5 percent or more of the fiduciary net position in the Plan. The Plan’s funds are invested in domestic equity, international equity, and fixed income funds through the Virginia Pooled OPEB Trust Fund, established as the investment vehicle for participating employers. The County is not involved in the administration of these funds. Further information about the Virginia Pooled OPEB Trust Fund, sponsored by VML/VACo Finance, including financial statements, can be obtained by writing to VML/VACo Finance Program, 8 East Canal Street, Suite 100, Richmond, Virginia 23219.

**(b) Discount Rate**

The discount rate used to measure the total OPEB liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed OPEB plan member contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits of current OPEB plan members and their beneficiaries are included. Projected County contributions that are intended to fund the service costs of future OPEB plan members and their beneficiaries, as well as projected contributions from future OPEB plan members, are not included. Based on these assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected future OPEB payments for current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**(c) Net OPEB Asset**

At June 30, 2022, the System reported an asset of (\$1,014,287) for its proportionate share of the net OPEB liability. The actuary calculated total OPEB (asset) liability was based on participant data collected as of June 30, 2020 and an actuarial valuation of the same date rolled forward to June 30, 2021, using the entry age actuarial cost method, with a measurement date of June 30, 2021. At June 30, 2021, the System’s proportion was 2.41 percent, no change from its proportion measured as of June 30, 2020.

The net OPEB asset was measured as of June 30, 2021, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The System’s net OPEB asset is determined by the System’s proportionate share of the OPEB plan participation. The System’s share of the net OPEB asset at June 30, 2022 is presented below:

Total OPEB liability	\$ 9,201,615
Plan fiduciary net position (market value of assets)	(10,215,902)
Net OPEB asset	<u>\$ (1,014,287)</u>
Plan fiduciary net position as a percentage of the OPEB liability	111.02%

**(d) Sensitivity of the System’s Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and Healthcare Trend Rate**

The following presents the System’s share of the net OPEB asset using the discount rate of 7.00 percent, as well as what the System’s share of the net OPEB asset would be if the discount rate was one percentage point higher (8.00 percent) or one percentage point lower (6.00 percent) than the current rate:

**Sensitivity of Net OPEB (Asset) Liability to Changes in Discount Rate**

	1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%
Total OPEB liability	\$ 10,716,817	\$ 9,201,615	\$ 7,995,442
Plan fiduciary net position	(10,215,902)	(10,215,902)	(10,215,902)
Net OPEB (asset) liability	<u>\$ 500,915</u>	<u>\$ (1,014,287)</u>	<u>\$ (2,220,460)</u>

The following table on the next page presents the System’s share of the net OPEB (asset) liability calculated using the current healthcare trend rates (4.50 percent), as well as what the System’s share of the net OPEB (asset) liability would be with healthcare trend rates at one percentage point lower (ultimate rate decreasing to 3.50 percent) or one percentage point higher (ultimate rate increasing to 5.50 percent) than the current rates:

**Sensitivity of Net OPEB (Asset) Liability to Changes in Healthcare Trend Rate**

	1% Decrease (Varied decreasing to 3.50%)	Current Discount Rate (Varied decreasing to 4.50%)	1% Increase (Varied decreasing to 5.50%)
Total OPEB liability	\$ 7,671,788	\$ 9,201,615	\$ 11,169,950
Plan fiduciary net position	(10,215,902)	(10,215,902)	(10,215,902)
Net OPEB (asset) liability	<u>\$ (2,544,114)</u>	<u>\$ (1,014,287)</u>	<u>\$ 954,048</u>

**(e) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended June 30, 2022, the System recognized OPEB expense of (\$562,364). As of June 30, 2022, the System reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 740,135	\$ (147,641)
Changes of assumptions	1,377,343	(2,802,362)
Net difference between projected and actual earning on OPEB plan investments	-	(1,223,235)
Change in proportion applicable to the System	-	(12,803)
System contributions subsequent to the measurement date	446,602	-
Total	<u>\$ 2,564,080</u>	<u>\$ (4,186,041)</u>

Deferred outflow of resources in the amount of \$446,602, reported above as System contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:  
Measurement Date June 30 of Prior Year

2023	\$ (382,684)
2024	(351,242)
2025	(365,101)
2026	(454,670)
2027	(285,462)
Thereafter	(229,404)
	<u>\$ (2,068,563)</u>

**(8) LONG-TERM LIABILITIES**

The following is a summary of the changes in the System's long-term liabilities for the fiscal year ended June 30, 2022:

	<b>Balances</b>			<b>Balances</b>	<b>Current</b>
	<b>June 30, 2021</b>	<b>Increases</b>	<b>Decreases</b>	<b>June 30, 2022</b>	<b>Portions</b>
Compensated absences	\$ 3,189,988	\$ 1,780,431	\$ (1,818,574)	\$ 3,151,845	\$ 1,610,874
Sewer revenue bonds - Series 2012	2,055,000	-	(2,055,000)	-	-
Sewer revenue refunding bonds - Series 2014	40,405,000	-	(4,255,000)	36,150,000	4,485,000
Sewer revenue refunding bonds - 2016A Series	160,635,000	-	(3,950,000)	156,685,000	6,290,000
Sewer revenue bonds - Series 2017	81,640,000	-	(1,485,000)	80,155,000	1,545,000
Sewer revenue bonds - Series 2021A	191,990,000	-	-	191,990,000	-

Net OPEB (asset) liability	420,338	1,392,443	(1,812,781)	-	-
	<u>\$ 879,964,920</u>	<u>\$ 48,535,679</u>	<u>\$ (73,548,551)</u>	<u>\$ 854,952,048</u>	<u>\$ 34,236,964</u>

**(a) Sewer Revenue Bonds**

The System issues bonds under the 1985 General Bond Resolution (the Resolution) adopted by the County Board. The Resolution includes a rate covenant under which the System agrees to charge reasonable rates for the use of services rendered by the System. Furthermore, the System will adjust the rates from time to time in order to generate net revenues sufficient to provide an amount equal to 100 percent of its annual principal and interest requirements, as well as the System's annual commitments to fund its proportionate share of other jurisdictions' debt service requirements. Pursuant to the Resolution, the System is required to maintain a reserve equal to the lesser of (i) the maximum principal and interest requirements of the outstanding bonds for any bond year or (ii) 125 percent of the average annual principal and interest for any bond year. In the opinion of the System's management, the System is in compliance with all Resolution covenants. Payment of the principal and interest on all Sewer revenue bonds is secured by a pledge of gross revenues derived from the System after provisions for payment of the operating expenses of the System. The bonds do not constitute general obligations of the County and authorization to issue any additional debt rests with the Board. In addition, the System is required to adhere to and is in compliance with the rebate and reporting requirements of the federal regulations pertaining to arbitrage.

On October 14, 2004, the System issued \$94,005,000 of sewer revenue refunding bonds (Series 2004), with an average interest rate of 4.61 percent, to advance refund \$91,430,000 of the outstanding Series 1996 bonds with an average interest rate of 5.82 percent. The net proceeds were used to redeem the Series 1996 bonds on July 15, 2006.

On August 8, 2012, the System issued \$90,710,000 of sewer revenue bonds (Series 2012), with an average interest rate of 4.53 percent, to fund upgrade costs allocable to the System at certain treatment facilities that are owned by or that provide service to the County, the purchase of additional capacity at certain wastewater treatment facilities for the benefit of the County, and the costs of certain additions, extensions, and improvements to the County's sewage collection, treatment, and disposal systems.

On April 16, 2014, the System issued \$61,755,000 of sewer revenue refunding bonds (Series 2014), with an average interest rate of 4.14 percent, to refund \$69,745,000 of the outstanding Series 2004 bonds with an average interest rate of 4.61 percent. The net proceeds were used to redeem the Series 2004 bonds on July 15, 2014. This refunding resulted in a deferred net loss of \$4,045,945, which is being amortized over 15 years, but an aggregate decrease in the overall debt service of \$15,461,166.

On May 12, 2016, the System issued \$164,450,000 of sewer revenue refunding bonds (Series 2016A), with a weighted average rate of 3.92 percent, to advance refund \$123,065,000 of the outstanding Series 2009 bonds with an average interest rate of 4.80 percent and \$46,720,000 of the outstanding Series 2012 bond with an average interest rate of 4.67 percent. This refunding resulted in a deferred net loss of \$12,406,377, which is being amortized over 24 years, and a remaining outstanding balance of \$13,400,000 unrefunded Series 2009 bonds and \$39,545,000 unrefunded Series 2012 bonds. This refunding resulted in an aggregate decrease in the overall debt service of \$35,116,418.

On June 28, 2017, the System issued \$85,785,000 of sewer revenue bonds (Series 2017), with an average interest rate of 4.77 percent, to fund certain additions, extensions, and improvements to the County's sewage collection, treatment, and disposal systems, capital improvement costs allocable to the County at certain wastewater treatment facilities that provide service to the County, the purchase of any necessary additional capacity at certain wastewater treatment facilities for the benefit of the County, the costs of issuing the Series 2017 bonds, and the necessary deposit to the reserve subfund.

On June 9, 2021, the System issued \$191,990,000 of Sewer Revenue Bonds (Series 2021A), with an average interest rate of 4.66 percent to pay the costs of certain additions, extensions and improvements to the County's sewage collection, treatment and disposal systems, pay for capital improvement costs allocable to the County at certain wastewater treatment facilities that provide service to the County and, if necessary, purchase additional capacity at certain wastewater treatment facilities for the benefit of the County, the costs of issuing the Series 2021A bonds, and the necessary deposit to the reserve subfund.

On June 9, 2021, the System took advantage of lower market interest rates and issued \$24,210,000 of Sewer Revenue Refunding Bonds (Series 2021B), with an average interest rate of 3.67 percent to refund \$28,625,000 of the outstanding Series 2012 Bonds with an average interest rate of 4.50 percent. The net proceeds were used to redeem the Series 2012 bonds on July 15, 2021. This refunding resulted in a deferred net gain of \$3,969,019, which is being amortized over 21 years, and an aggregate decrease in the overall debt service of \$11,937,848.

The outstanding bonds as of June 30, 2022, consist of \$36,150,000 of Series 2014 revenue refunding bonds, \$156,685,000 of Series 2016A revenue refunding bonds, \$80,155,000 of Series 2017 revenue bonds, \$191,990,000 of Series 2021A revenue bonds, and \$24,210,000 of Series 2021B revenue refunding bonds that bear interest at varying rates and mature in varying amounts. The bond principal and interest payment schedule details are as follows, found on the next page:

Fiscal Year	Series 2014			Series 2016A			Series 2017		
	Principal	Interest	Total	Principal	Interest	Total	Principal	Interest	Total
2023	\$ 4,485,000	\$ 1,313,375	\$ 5,798,375	\$ 6,290,000	\$ 6,267,481	\$ 12,557,481	\$ 1,545,000	\$ 3,961,400	\$ 5,506,400

Per the bond agreements, upon the occurrence of any event of default, Trustees may proceed to protect and enforce its rights and rights of the Bond Holders under the laws of the Commonwealth or the General Bond Resolution or by proceedings in the office of any board having jurisdiction, either for the specific performance of any agreement or for the enforcement of any proper legal or equitable remedy. In the enforcement of any remedy under the General Bond Resolution, the Trustee or the Bond Holders will be entitled to sue for, enforce payment of amounts remaining due for principal, interest, interest on overdue payments of principal, all costs and expenses of collection and all proceedings under the General Bond Resolution. The acceleration clause allows the lender, upon default, to accelerate payment of the entire unpaid Bond principal and interest.

**(b) Economic Development Authority Bonds**

On November 23, 2021, the Fairfax County Economic Development Authority (EDA) issued \$74,605,000 of Fairfax County Facilities Revenue Bonds Series 2021A, with an average interest rate of 4.60 percent, to fund the costs of construction of a joint Stormwater/Wastewater facility to be used to consolidate the functions and operations of Fairfax County’s Stormwater and Wastewater divisions (the “2021 Public Works Project”) and to pay the issuance costs of the Series 2021A bonds. Of the total par value in the amount of \$74,605,000, Stormwater’s component share is \$54,550,000, while Wastewater’s component share is \$20,055,000.

Fiscal Year	EDA S2021A		
	Principal	Interest	Total
2023	\$ 605,000	\$ 933,375	\$ 1,538,375
2024	635,000	902,375	1,537,375
2025	670,000	869,750	1,539,750
2026	700,000	835,500	1,535,500
2027	735,000	799,625	1,534,625

2038-2042	6,915,000	770,850	7,685,850
Total	\$ 20,055,000	\$ 10,681,400	\$ 30,736,400

***(c) Subordinated Sewer Revenue Bonds***

In June 2002, the System issued 20-year subordinated sewer revenue bonds in the amount of \$50,000,000 (Series VRA 2002) to the Virginia Water Facilities Revolving Fund, acting by and through the Virginia Resources Authority (VRA). The proceeds have been used to fund a portion of the System's share of the expansion and upgrade costs of the Alexandria Renew Enterprises' wastewater treatment facilities, which provide service to certain County residents. In September 2012, the System executed a rate reduction agreement with VRA, reducing the interest rates on the VRA 2002 bonds from 3.75 percent per annum to 2.35 percent per annum. This reduced the required semi-annual debt service payments from \$1,818,894 to \$1,706,099. This rate reduction agreement resulted in an aggregate decrease in the VRA 2002 bond debt service of \$2,143,099.

In May 2016, the System executed a rate reduction agreement with VRA, reducing the interest rate of the VRA 2002 bonds from 2.35 percent per annum to 0.95 percent per annum. This reduced the semi-annual debt service payments from \$1,706,099 to \$1,638,306. This rate reduction resulted in an aggregate decrease in the VRA 2002 bond debt service of \$813,525. This bond is subordinate to all outstanding prior bond issues of the System and payments for operation and maintenance expenses. In February 2022, the VRA 2002 subordinated sewer revenue bonds reached final maturity.

Per the bond agreements, upon the occurrence of any event of default, VRA has the right to immediately declare all outstanding bond payments due and payable by the System without further notice or demand and is authorized to take legal action necessary to collect the payments owed.

***(d) Upper Occoquan Service Authority (UOSA) Debt***

In December 2003, UOSA issued \$58,150,000 of regional sewer system revenue refunding bonds (UOSA 2003), of which the System's share is \$36,848,116, to advance refund the outstanding UOSA 1993 bonds. This refunding resulted in a deferred net gain of \$1,514,494, which is being amortized over the life of the UOSA 2003 bonds.

In July 2005, UOSA issued \$82,465,000 of regional sewer system revenue refunding bonds (UOSA 2005), of which the System's share is \$53,201,198, to advance refund another portion of the outstanding UOSA 1995 bonds. This refunding resulted in a deferred net gain of \$1,909,604, which is being amortized over the life of the UOSA 2005 bonds.

In February 2007, UOSA issued \$90,315,000 of regional sewer system revenue refunding bonds (UOSA 2007A), of which the System's share is \$58,265,521, to advance refund another portion of the outstanding UOSA 1995 bonds. This refunding resulted in a deferred net loss of \$83,868, which is being amortized over the life of the UOSA 2007A bonds.

In December 2007, UOSA issued \$119,715,000 of regional sewer system revenue bonds (UOSA 2007B), of which the System's share is \$53,925,458, to fund the expansion of its wastewater treatment and conveyance facilities.

In December 2010, UOSA issued \$85,180,000 of regional sewer system revenue bonds (UOSA 2010), of which the System's share is \$34,113,615, to fund certain capital improvements.

In July 2011, UOSA entered into VRA loan Series 2011A to fund costs related to the Energy Service (ESCO) project. In December 2011, UOSA entered into VRA loan Series 2011B to fund Phase 1 of the Nutrient Compliance Improvement Project (PINR).

In May 2013, UOSA issued \$101,615,000 of regional sewer system revenue refunding bonds (UOSA 2013A), of which the System’s share is \$65,555,566, to advance refund the outstanding UOSA 2005 bonds. This refunding resulted in a deferred net loss of \$12,354,368, which is being amortized over the life of the UOSA 2013A bonds, but an aggregate decrease in the overall debt service of approximately \$4.9 million.

In November 2013, UOSA issued \$37,735,000 of regional sewer system revenue refunding bonds (UOSA 2013B), of which the System’s share is \$23,911,671, to advance refund the outstanding UOSA 2003 bonds. This refunding resulted in a deferred net loss of \$2,520,436, which is being amortized over the life of the UOSA 2013B bonds, but an aggregate decrease in the overall debt service of approximately \$2.1 million. In fiscal year 2022, the UOSA 2013B bonds reached final maturity.

In fiscal year 2015, UOSA issued regional sewer system revenue refunding bonds (UOSA 2014) to advance refund the outstanding UOSA 2007A bonds and a portion of the outstanding UOSA 2007B bonds. Of the \$112,190,980 UOSA 2007 bonds outstanding balance, \$93,175,291 was refunded into the UOSA 2014 bonds. This resulted in a deferred net gain of \$2,029,199, which is being amortized over 24 years, and an aggregate decrease in the overall debt service of \$6,359,186.

In fiscal year 2016, UOSA issued regional sewer system revenue refunding bonds (UOSA 2016B) to advance refund the \$19,015,689 remaining outstanding UOSA 2007B bonds. This refunding resulted in a deferred net gain of \$533,782, which is being amortized over 22 years, and an aggregate decrease in the overall debt service of \$4,676,694.

In December 2019, UOSA issued \$52,440,000 of regional sewer system revenue bonds (UOSA 2019), of which the System’s share is \$21,410,631, to fund improvements to UOSA’s regional advanced wastewater treatment system.

In November 2020, UOSA issued \$199,755,000 of regional sewer system revenue refunding bonds (UOSA 2020), of which the System’s share is \$111,228,596, to advance refund the \$91,146,092 remaining outstanding UOSA 2014 bonds. This refunding resulted in a deferred net loss of \$19,939,089, which is being amortized over 20 years, but an aggregate decrease in the overall debt service of \$2,594,724.

The System’s share of UOSA’s total outstanding debt as of June 30, 2022 is \$220,894,723 and it is subordinate to the sewer revenue bonds issued by the System. The System’s share of outstanding UOSA regional sewer system revenue and refunding bonds as of June 30, 2022 is as follows:

Fiscal Year	UOSA		
	Principal	Interest	Total
2023	\$ 15,443,181	\$ 5,144,383	\$ 20,587,564
2024	15,789,046	4,799,013	20,588,059
2025	16,173,163	4,417,238	20,590,401
2026	23,735,131	4,009,294	27,744,425
2027	17,618,841	3,576,273	21,195,114
2028-2032	55,071,382	14,394,976	69,466,358
2033-2037	33,381,072	10,247,120	43,628,192
2038-2042	32,342,245	4,444,552	36,786,797
2043-2047	6,302,386	1,231,074	7,533,460
2048-2052	5,038,276	462,325	5,500,601
Total	\$ 220,894,723	\$ 52,726,248	\$ 273,620,971

Per the bond agreements, upon the occurrence of any event of default, bondholders have the right to direct the method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of the Trust Agreement. Bondholders do not have the right to institute any suit, action, or proceeding in equity or at law for enforcement of the Trust Agreement for the execution trust unless the specific terms of the bond agreement are met. Nothing in the Trust Agreement shall affect or impair the right of any bondholder to enforce legal action for payment of the principal, premium, and interest upon maturity of the bond.

## **(9) COMMITMENTS AND CONTINGENCIES**

### ***(a) Cost Sharing Agreement with Alexandria Renew Enterprises (AlexRenew)***

The System is obligated under an agreement with AlexRenew to share in the construction and operating costs and debt service requirements for AlexRenew's sewage treatment facility. Currently, the System has a capacity entitlement of 32.4 MGD, which is 60 percent of the facility's total capacity of 54.0 MGD. Although the System is allowed one nonvoting representative at the meetings of AlexRenew, the System has no significant influence in the management of the treatment facility. In addition, the System has no direct ongoing equity interest in the assets or liabilities of AlexRenew. Accordingly, the System does not account for this commitment as a joint venture.

A new construction program to build enhanced nutrient removal facilities has been initiated. The System paid AlexRenew \$11,282,386 for purchased capacity in fiscal year 2022 to fund its share of the construction and land acquisition costs. The System estimates its share of the remaining construction costs to be \$138,475,000, of which \$19,356,000 is expected to be incurred in fiscal year 2023 and the remaining balance over fiscal years 2024 to 2031. In addition, the System made total payments of \$10,785,305 to AlexRenew during fiscal year 2022 for its share of AlexRenew's operating costs.

### ***(b) Cost Sharing Agreement with the District of Columbia (District)***

The System is obligated under the 2012 Blue Plains Intermunicipal Agreement (2012 IMA), which replaced the 1985 IMA, between the County, the District, the District of Columbia Water and Sewer Authority (DC Water), Montgomery County in Maryland, Prince George's County in Maryland, and the Washington Suburban Sanitary Commission, to share the construction and operating costs of the Blue Plains Wastewater Treatment Plant, which is operated by DC Water. Currently, the System has a capacity entitlement of 31.0 MGD, which is approximately 8.4 percent of the Plant's total capacity of 370.0 MGD. DC Water has a Board of Directors comprised of six members from the District, two each from Montgomery and Prince George's Counties, and one from the County. The System has no significant control over plant operations and construction and no ownership interest in the assets of DC Water. Accordingly, the System does not account for this commitment as a joint venture.

The Blue Plains Plant is currently undergoing a major renovation of its nitrogen removal facilities and the construction of new wet weather flow facilities. The System paid DC Water \$9,081,367 for purchased capacity in fiscal year 2022 to fund its share of construction costs. The System estimates its share of the remaining construction costs to be \$231,654,000, of which \$20,693,000 is expected to be incurred in fiscal year 2023, and the remaining balance over fiscal years 2024 to 2031. In addition, the System made total payments of \$13,788,885 to DC Water during fiscal year 2022 for its share of the Blue Plains Plant's operating costs.

**(c) Joint Venture – Upper Occoquan Service Authority (UOSA)**

UOSA is a joint venture created under the provisions of the Virginia Water and Waste Authorities Act on March 3, 1971 by a concurrent resolution of the governing bodies of the County, Prince William County, the City of Manassas, and the City of Manassas Park to finance, construct, and operate a regional sewage treatment facility. Currently, the System has a capacity entitlement of 22.1 MGD, which is 41 percent of the facility's total capacity of 54.0 MGD. The governing body of UOSA is an eight-member board of directors consisting of two members from each participating jurisdiction, appointed to four-year terms. The UOSA Board of Directors adopts an annual operating budget based on projected sewage flows.

The County has no explicit and measurable interest in UOSA, but does have an ongoing financial responsibility for its share of UOSA's construction costs, operating costs, and annual debt service. There are no ongoing construction costs for UOSA and the System did not purchase capacity from UOSA in fiscal year 2021. In addition, the System made total payments to UOSA of \$13,846,223 in fiscal year 2022 to pay its share of UOSA's operating costs

Summarized UOSA financial information as of and for the year ended June 30, 2021, the most recent available audited financial information, is shown below:

	<b>2021</b>
Total assets	\$ 545,139,317
Deferred outflows of resources	30,108,454
Total liabilities	(546,755,430)
Deferred inflows of resources	(1,214,477)
Net position	<u>\$ 27,277,864</u>
Operating revenues	\$ 32,486,897
Operating expenses	(62,531,610)
Nonoperating revenues and expenses, net	(4,852,451)
Capital contributions	21,107,329
Decrease in net position	<u>\$ (13,789,835)</u>

The complete financial statements for UOSA can be obtained by writing to UOSA at 14631 Compton Road, Centreville, Virginia 20121 or by accessing UOSA's website.

**(d) Cost Sharing Agreement with Arlington County, Virginia (Arlington)**

The System is obligated under the 1989 Sewage Conveyance Treatment and Disposal Agreement with Arlington to share the construction and operating costs of the sewage treatment facility owned and operated by Arlington. Currently, the System has a capacity entitlement of 3.0 MGD, which is 7.5 percent of the facility's total capacity of 40.0 MGD. The System has no direct ongoing equity interest in the facility's assets and liabilities. Furthermore, the System has no significant influence in the management of Arlington's treatment facility. Accordingly, the System does not account for this commitment as a joint venture.

The Arlington facility has recently completed a major upgrade to meet new water quality standards. The System paid Arlington \$374,164 for purchased capacity in fiscal year 2022 to fund its share of construction costs. The System estimates its share of the remaining construction costs to be \$15,602,000, of which \$1,970,000 is expected to be incurred in fiscal year 2023 and the remaining balance over fiscal years 2024 to 2031. In addition, the System made total payments of \$2,045,814 to Arlington during fiscal year 2022 for its share of Arlington's operating costs.

***(e) Cost Sharing Agreement with Loudoun County, Virginia, Sanitation Authority (Loudoun Water)***

The System is obligated under the Broad Run Water Reclamation Facility Capacity Agreement with Loudoun Water to share the construction and operating costs and debt service requirements of the sewage treatment facility owned and operated by Loudoun Water. Currently, the System has a capacity entitlement of 1.0 MGD, which is 9.0 percent of the facility’s total capacity of 11.0 MGD. The System has no direct ongoing interest in the facility’s assets and liabilities. Furthermore, the System has no significant influence in the management of Loudoun Water’s treatment facility. Accordingly, the System does not account for this commitment as a joint venture.

The System will incur operating costs once it starts to deliver flows to Loudoun Water’s facilities, which has not happened to date and is not expected to start in fiscal year 2023. The Broad Run Plant is a new facility; therefore, no construction or debt service requirements are expected in the near future.

***(f) Other Commitments***

As of June 30, 2022, the System had contractual commitments, excluding the above noted AlexRenew, District, UOSA, Arlington, and Loudoun Water contractual commitments, of \$65,171,935 for the construction of various sewer projects.

***(g) Other Contingencies***

The System is contingently liable with respect to lawsuits and other claims which arise in the ordinary course of its operations. It is the opinion of the management of the System and the County, as well as the County Attorney, that any losses which may ultimately be incurred as a result of those lawsuits and claims will not be material to the System’s financial statements.

**(10) RISK MANAGEMENT**

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and citizens; and natural disasters. For all of these risks, the System participates in the County’s insurance program, which includes self-insurance and the purchase of certain commercial insurance policies. The System is charged by the County for costs associated with workers’ compensation, vehicle and general liability risks, and the costs associated with other risks borne by the County. There were no claims settlements in excess of insurance coverage in any of the past three fiscal years. Information regarding the County’s insurance program is available in the County’s ACFR for the fiscal year ended June 30, 2022.

**(11) IMPLEMENTATION OF NEW ACCOUNTING PRONOUNCEMENTS**

In fiscal year 2022, the System implemented the following standard, which had no material impact on the System's financial statements:

*GASB Statement No. 87, Leases*

This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors.

*GASB Statement No. 92, Omnibus 2020*

This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics.

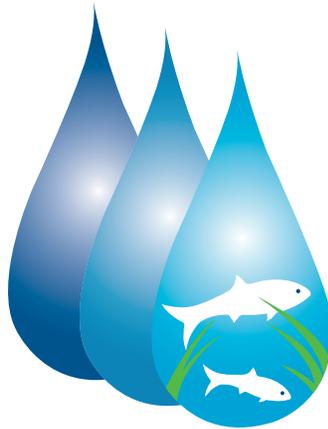

*GASB Statement No. 93, Replacement of Interbank Offered Rates*

This Statement establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates in hedging derivative instruments and leases.

*GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*

This Statement improves consistency in the financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans.

Notes:

- (a) Wastewater treatment expenses are direct operating expenses, excluding depreciation and amortization.  
 (b) Other plants include Harbor View and Prince William County Service Authority.

Unaudited - see accompanying report of independent auditor.

## 2.0 REVENUE CAPACITY

Revenue capacity information is intended to assist users in understanding and assessing the factors affecting the system's ability to generate its own-source revenues. There are six tables presented in this section.

**TABLE 2.1 - SEWER RATE STRUCTURE (a) - LAST TEN FISCAL YEARS**

Fiscal Year	Availability Charge (b) (Per Unit)			Retail Sewer Service Charge (c) (Per 1,000 gallons)	Retail Residential Sewer Service Base Charge (d) (Per Bill)
	Single Family Residence	Townhouse/ Apartment	Commercial Fixture		
2022	\$ 8,507	\$ 6,806	\$ 425	\$ 7.72	\$ 36.54
2021	8,340	6,672	417	7.28	32.91
2020	8,340	6,672	417	7.28	32.91
2019	8,100	6,480	405	7.00	30.38
2018	8,100	6,480	405	6.75	27.62
2017	7,750	6,200	401	6.68	24.68
2016	7,750	6,200	401	6.65	20.15
2015	7,750	6,200	401	6.62	15.86
2014	7,750	6,200	401	6.55	12.79
2013	7,750	6,200	401	6.55	5.50

**Connection Charge (e)** - Effective July 1, 2011, the rate was increased to \$152.50 per foot.

Prior to this date, the rate was \$6.00 per foot since December 1970.

**Lateral Spur Charge (f)** - The rate has been \$600 per spur connection since March 1981.

Source: Fairfax County Wastewater Management Program

Notes:

- (a) Sewer rates are established by the Board of Supervisors pursuant to Chapter 67.1 of the County Code. Rates and code language are reviewed annually by the County staff as part of the County's annual long-range planning and short-term budgeting process and revised as necessary. These rates are in effect for County customers only. Customers outside the County are billed subject to sale of service agreements.
- (b) Availability Charge - This is a one-time charge collected from all new customers prior to connection to the System to cover in part the new customer's proportionate cost of System facilities beyond the collector system. Residential units pay on a per unit basis. Commercial units pay an equivalent residential (single family residence) unit fee for the first 19 plumbing fixture units, then on a per fixture unit basis for any fixture units in excess of the residential equivalent amount.
- (c) Retail Sewer Service Charge - Single family residences and townhouses are billed sewer service charges quarterly based on water consumption from the previous winter quarter. Apartment and nonresidential complexes are billed based on consumption used during the billing period. These charges are collected by three water billing agents: Fairfax Water, the City of Falls Church, and the Town of Vienna.
- (d) Beginning in FY 2010, a base charge of \$5.00 per bill is assessed, in addition to the sewer service charge, to partially recover fixed expenses for billing, wastewater collection, engineering, planning, and administrative expenses.
- (e) Connection Charge: frequently called the front footage charge, this is a one-time charge collected from new customers prior to connection to the System as a partial repayment of County installed collector sewers.
- (f) Lateral Spur Charge: this is a one-time charge that applies only to those new customers who are connecting to County installed sanitary sewers where the lateral spurs have been installed at County expense.

Unaudited - see accompanying report of independent auditor.

Source: Fairfax County Wastewater Management Program

Notes:

(a) Gross revenues include all revenues except amortization of deferred gains on bond refundings and gains on disposals of capital assets.

(b) Operating expenses do not include depreciation and amortization.

(c) Senior debt includes sewer revenue and revenue refunding bonds issued by the System and the System's share of debt of the Alexandria Sanitation Authority.

(d) Subordinate debt is paid after senior debt and operating expenses. It includes debt service on the System's share of debt of UOSA Revenue Bonds and VRA Revenue Bonds.

(e) The same resources are used for all debt service requirements. See Table 3.3 for details of principal and interest amounts.

(f) The minimum senior debt service coverage should be no less than 1.25 times the debt service requirements for the fiscal year.

Unaudited - see accompanying report of independent auditor.

**TABLE 3.3 - DEBT SERVICE REQUIREMENTS (a) - LAST TEN FISCAL YEARS**

(a) Debt service amounts reported in this table include both principal and interest payments on bonds based on a cash basis.

Unaudited - see accompanying report of independent auditor.

## 4.0 DEMOGRAPHIC AND ECONOMIC INFORMATION

Demographic and economic information is intended to assist users in understanding the socioeconomic environment within which a government entity operates and to provide information that facilitates comparisons of financial statement information over time and among environments. There are two tables presented in this section.

**TABLE 4.1 - DEMOGRAPHIC AND ECONOMIC STATISTICS - LAST TEN CALENDAR YEARS**

Calendar Year	County Population		Personal Income (c) (000s)	Per Capita Personal Income (c)	Unemployment Rate (d)
	Total (a)	On County Sewer (b)			
2021	1,170,443	957,500	\$ 105,777,709	\$ 88,971	3.5 %
2020	1,171,848	954,000	100,944,159	86,141	5.6
2019	1,166,965	952,000	96,205,762	82,441	2.3
2018	1,152,873	949,000	90,357,574	78,376	2.4
2017	1,142,888	945,000	86,834,344	75,978	3.0
2016	1,138,652	941,000	85,311,224	74,923	3.2
2015	1,142,234	937,000	85,675,546	75,007	3.1
2014	1,137,538	936,245	81,620,627	71,752	3.5
2013	1,130,924	935,435	80,982,075	71,607	3.7
2012	1,118,602	932,864	77,012,392	68,847	4.3

Notes:

- (a) Total population data includes the Cities of Fairfax and Falls Church and is obtained from the U.S. Census Bureau's American Fact Finder.
- (b) Population data for those on County Sewer is obtained from the Fairfax County Wastewater Management Program.
- (c) Personal income data is obtained from the Bureau of Economic Analysis, U.S. Department of Commerce and includes the Cities of Fairfax and Falls Church. Data for only Fairfax County is not available; however, it is believed that the inclusion of these Cities does not significantly affect the County's data. Fairfax County data for 2021 is estimated using percent change in per capita personal income from 2020.
- (d) Unemployment rates are obtained from the Virginia Employment Commission's Annual Unemployment Statistics for the calendar year, not seasonally adjusted.

Unaudited - see accompanying report of independent auditor.

**TABLE 4.2 - PRINCIPAL EMPLOYERS - CURRENT YEAR AND NINE YEARS AGO**

Employer	Fiscal Year 2022 (a)			Fiscal Year 2013 (a)		
	Number of Employees (b)	Rank	Pct. of Total County Employment (c)	Number of Employees (b)	Rank	Pct. of Total County Employment (c)

Administaff	-	-	-	1,000-3,999	10	0.42
<b>Total</b>			<b>19.12 %</b>			<b>17.35 %</b>

Source: Fairfax County Economic Development Authority, using Virginia Employment Commission data; Fairfax County Public Schools; Fairfax County Department of Management and Budget

Notes:

- (a) Employment information for fiscal year 2022, excluding data for Fairfax County Government and Fairfax County Public Schools, is from the 4th quarter of calendar year 2021 VEC and Fairfax County's Economic Development Authority (Jan 22). Employment information for fiscal year 2013 is as presented in the fiscal year 2013 Comprehensive Annual Financial Report.
- (b) Employment estimates for separate facilities of the same firm have been combined to create company totals. Employment ranges for the private sector are given to ensure confidentiality.
- (c) Percentages are based on the midpoint of the employment range. Average total County employment for fiscal year 2022 is estimated at 625,452 based on Virginia Employment Commission. Average total County employment for fiscal year 2013 was estimated at 590,282.
- (d) Science Applications International Corporation employment is reported prior to the September 2013 split into two independent companies (SAIC and Leidos).

Unaudited - see accompanying report of independent auditor.

## 5.0 OPERATING INFORMATION

Operating information is intended to provide contextual information about a government entity’s operations and resources to assist readers in using financial statement information to understand and assess a government entity’s economic condition. There are nine tables presented in this section.

**TABLE 5.1 - WASTEWATER MANAGEMENT EMPLOYEES BY DIVISION (a) - LAST TEN FISCAL YEARS**

**WASTEWATER TREATMENT PLANT SERVICE AREA MAP**

## FAIRFAX COUNTY WASTEWATER MANAGEMENT

### Quality of Water = Quality of Life

The three droplets in the logo range in color from dark to medium to light tones to signify the purification process that takes place at treatment facilities.

The end result of this process is water that is returned to the County's streams at a high level of quality that supports a healthy ecosystem and end uses such as recreational boating, swimming and fishing.

The fish—the alewife—portrayed within the droplet, along with the aquatic grasses shown, are bellwethers of a hospitable environment.

The slogan, "Quality of Water = Quality of Life," represents the care taken by Wastewater Management to produce an end product that enhances the quality of residents' environmental and recreational lives.

About the Fairfax County  
Wastewater Management Logo

**VISION** We aspire to achieve a pure and natural state of air and water quality by providing superior wastewater utility service in a spirit of teamwork and excellent customer service.

**MISSION** Our mission is to collect, treat, and monitor wastewater in compliance with all regulatory requirements, using state-of-the-art technology in the most effective manner. We work to improve the environment and enhance the quality of life in Fairfax County.

## FAIRFAX COUNTY WASTEWATER MANAGEMENT

Quality of Water = Quality of Life

Fairfax County is committed to a policy of nondiscrimination in all county programs, services and activities and will provide reasonable accommodations upon request. Special accommodations/alternative information formats will be provided upon request. Call 703-324-5030, TTY 711.
