

Special Waste

Electronics

Fluorescents

Batteries

HHW

For Office & Maintenance Staff

- Recycle electronic equipment like computers, televisions, and printers through an accredited recycler.
- Fluorescent bulbs have a small amount of mercury and must be handled with care. Learn more about how to recycle them at the EPA's CFL page <http://www2.epa.gov/cfl>.
- To learn how to recycle rechargeable batteries visit www.Call2Recycle.org.
- To learn how to handle hazardous waste visit www.knowtoxics.com.
- If you generate small quantities of hazardous waste, you may qualify for a county program that provides affordable solutions for hazardous waste disposal. Please visit www.fairfaxcounty.gov/publicworks/recycling-trash/hazardous-waste for more information.

For Residents

Please inform residents that they can take any of the above materials to the Resident Recycling and Disposal sites at:

- **I-66 Transfer Station**,
4618 West Ox Road, Va. or
- **I-95 Landfill Complex**,
9850 Furnace Road, Lorton, Va.
