

Fairfax County 2018 MS4 Program Plan and Annual Report

# Appendix R14

Dry Weather Screening Report

VSMP Permit Number VA0088587  
9-28-2018

StormNet ID	Results of Inspection	Follow-up actions
STMN0293016925	Multiple exceedances	Since water quality tests were high for most parameters the results were given to the IDID section on 11/30/17 for follow up. Suspected car washing at car dealership. Car dealer is in the process of constructing a car wash on the premises. IDID investigation is ongoing.

STMN1072513875	No Exceedances	
STMN1072500036	No Exceedances	
STMN1072500054	Fluoride and Chlorine exceedance	Water coming from pipes flowing from the direction of the apartment building. Retest on 11/20 resulted in fluoride of 0.7 mg/l and chlorine of 1.99 mg/l. Flow originating from two pipes from apartment complex. Site was turned over to IDID section on 11/21/17. Leaking pipes from apartment complex were fixed and case closed on 3/6/18.

STMN0991488672	No Exceedances	
STMN0991488660	Conductivity and Copper exceedances	Retest on 11/21 resulted in specific conductivity of 1206 and copper of 0.477 mg/L. Manhole in strip mall across road holding water with decomposing leaves. Believe the decomposing leaves are leading to high readings. Since no flow is coming into manhole holding water and leaves no further track down will occur.
