# Proposed Striping Modifications

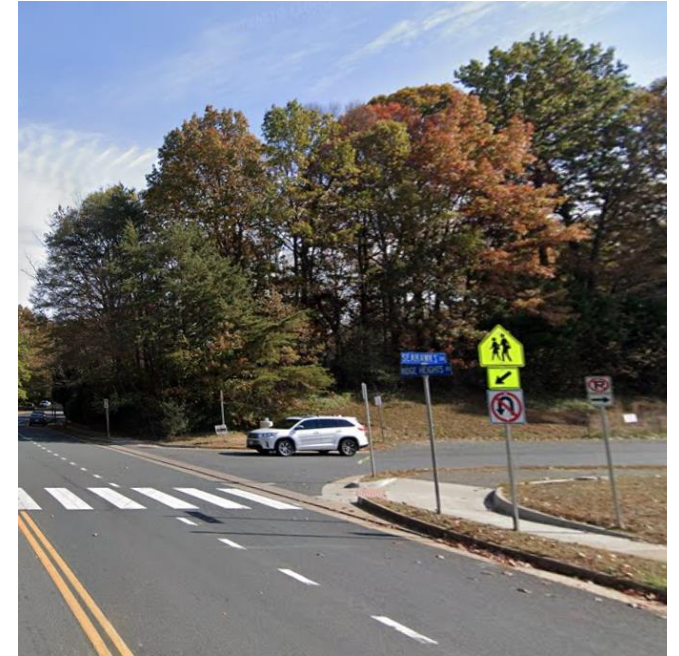

# A COLLABORATION BETWEEN VDOT & FCDOT

- VDOT & FCDOT collaborate on improving traffic safety for all users as part of the annual paving program:
  - FCDOT reviews draft paving plan and **identifies opportunities for improvements** – potential new crosswalk markings, widening shoulders and medians by shifting lane markings, need for bus stop relocations, and adding bike lanes and turn lanes where appropriate
  - VDOT **develops striping and signing plans** and coordinates implementation with contractors
  - FCDOT **leads public engagement** and coordination with District Supervisors
  - VDOT identifies and **reconstructs substandard curb ramps** and median roll throughs to improve accessibility
  - FCDOT installs bike lane, road diet and crosswalk signage

# CROSSWALK ENHANCEMENTS

- FCDOT studies **busy pedestrian crossing locations** without crosswalk markings to determine if crossing meets VDOT warrants for marked crosswalks and if minor parking restrictions are needed to improve crossing safety
- VDOT **upgrades existing crosswalk striping** from standard to high visibility near schools and near transit stations
- FCDOT **identifies key crosswalks for future enhancements**, such as pedestrian refuges

# SPRINGFIELD DISTRICT PROPOSED CROSSWALK

- Shiplett Boulevard and Capella Avenue
- Connects residents living north of Shiplett Boulevard to residents living south of it and along Capella Avenue
- Proposed parking restrictions in marked in yellow >
  - Eight spaces on westbound side of street
