Community Engagement			[Dark blue bar spanning from August 2020 to December 2020]					[Dark blue bar spanning from February 2021 to May 2021]						
Vision, Goals, Objectives + Benefits								[Dark blue bar spanning from February 2021 to May 2021]						
Strategic Safety Program Plan				[Dark blue bar spanning from September 2020 to May 2021]										

We are here

Advisory Committees Update

- Invitation to join Equity Advisory Committee sent to 300 local non-profit organizations representing target groups
 - List of organizations was developed by NCS/HD to aid Covid outreach
- Invitation to join Youth Advisory Committee sent to Student Bus Pass program participants and NCS teen center list serv
- Advisory committees are expected to kick off in early December

Branding

Plan + Policy Audit

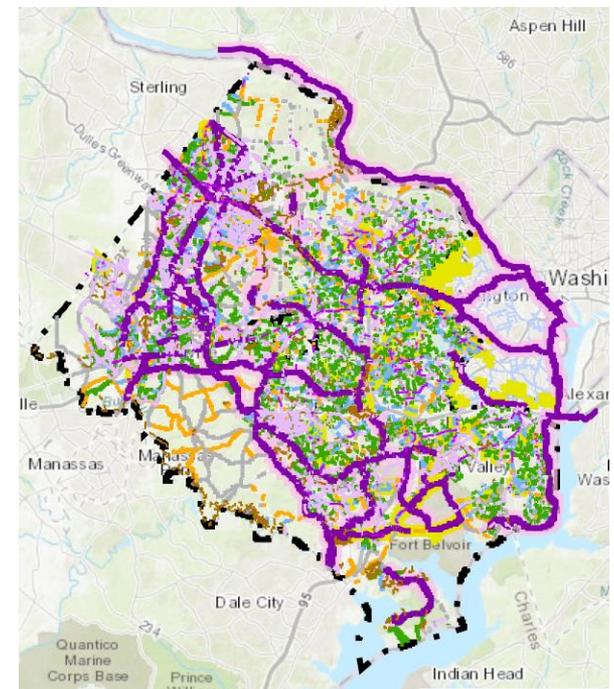

- Development of spreadsheet summary is nearly complete
- Spread sheet to include:
 - Name of plan and agency
 - Date published
 - Link to plan
 - Type of plan
 - Why is this plan important in relation to ActiveFairfax?
 - Overall recommendations related to active transportation with strengths/weakness assessment of:
 - Design standards
 - Policies
 - Infrastructure recommendations
 - Performance measures

Existing Conditions Update

- Equity, health and demand analysis underway
- Crash data review underway
 - Cluster maps of collisions
 - Top 5 crash corridors (bike + ped)
 - Bike and Pedestrian Crash Characteristics
- Development of planned facilities map underway
- Existing facilities web map completed:
<https://arcg.is/Xqv4S>
- Field work postponed to mid-December (after plan review audit and fall cleanup)

Community Engagement Update

- Community engagement plan development and outreach task selection underway
- Project website launched: <https://www.fairfaxcounty.gov/transportation/bike-walk/activefairfax>
- Interactive map and survey development underway

ActiveFairfax Transportation Plan

Project Overview

Fairfax County is continuing its efforts to prioritize transportation for all with its launch of the ActiveFairfax Transportation Plan. Active transportation is self-propelled, human-powered travel including activities such as walking, biking, rolling (scooter/wheelchair/stroller), hiking, running and riding.

Through collaboration with partners across the region, the ActiveFairfax Transportation Plan will:

- provide an engagement effort that provides a wide variety of outreach tools and activities that aim to ensure all County residents' mobility concerns, needs, and desires are understood and considered;
- develop a vision to help shape the future of active transportation in Fairfax County;
- consolidate previous active transportation planning efforts into one cohesive document that is easy-to-digest and track performance;

Your Voice Matters!

During Phase One of the ActiveFairfax Transportation Plan, FCDOT will be asking for public input to help answer the following questions:

- How do you actively travel around your community and throughout the County today?
- How do you want to actively travel around/within your community and throughout the County in the future?
- What current challenges need to be addressed to allow you to actively travel around your community and throughout the County more safely, conveniently and comfortably? What big ideas (e.g., new facilities or programs) do you have to improve how you actively travel around your community and throughout the County?

Stay tuned for ways to get involved! The project team is currently working on the development of a user survey and interactive map for you to share your feedback and we will also be hosting a virtual open house to kick-off

Systematic Safety Program Plan Update

- Inventory of policy areas that affect the risk factors corresponding with crash profiles underway
- Bike and pedestrian crash analysis underway as part of Existing Conditions Analysis task

Discussion
