Route 7 Project: 0007-029-128, P102, UPC 52328 Fairfax County, Virginia

Dear Property Owner:

The Virginia Department of Transportation (VDOT) is considering improvements to Route 7 as noted above. The purpose of this proposed improvement is to enhance safety and upgrade the roadway drainage system as well as improve the existing highway.

In order to plan improvements to existing highways, it is necessary for a location survey to be made to determine the safest and highest quality alternatives. Surveyors from VDOT, or its consultant JMT, may need to enter your property to locate physical features, property lines, etc. This survey work does not indicate that a highway across your property is imminent or that a decision on an improvement has been made. This survey is simply for the purpose of gathering data and is one of the early steps toward determining the feasibility of highway improvements.

We anticipate the surveyors to begin work in your neighborhood approximately May 23, 2012, through November 23, 2012. Should there be any need to further access your property for surveying purposes, we will contact you either in person or by mail.

If you have any knowledge of cemeteries, easements, or home owner installed utilities that are not recorded in your locality's public records or if you have knowledge of any particular items of interest that may affect the improvements in your area or have any other questions, please contact the District Survey Manager. If you have questions about schedules and proposed changes, please contact the Project Manager.

This certified letter is being sent to you pursuant to Section 33.1-94 of the Code of Virginia.

Cordially Yours,

James B. Lassiter VDOT Location & Design 1401 East Broad Street Richmond, VA 23219 (804) 786-6839 Kim McCool, P.E., PMP VDOT Senior Transportation Engineer 4975 Alliance Drive, Fairfax Fairfax, VA 22030 (703) 259-1778
