Stop wasting our money on whitewashing our history. Based on a November 8 meeting video this team is highly skewed towards representing the primarily black population (at least half!) where the district's actual make up for blacks, according to the 2020 census is 19%. This is a very racist task force and should be closed because it does not reflect the population that lives here. We don't want to change the name Black Crime Fighter instead.

That way you won't make the same mistake.

1. Changing the name will not change the story, nor the current reality. Rather, we must teach about what happened. Hiding the facts doesn't work.
2. The names of the roads must remain as they are. The heritage and interesting history of Virginia must be respected. Name new roads for new heroes, and keep old names for the sake of history. This is like Chinese red terror.
3. The names reflect the generals of the Union Army killed during the largest battle of the war that took place at Fairfax.
4. History cannot be changed.
5. Stop this racist task force. There is no adequate representation of other ethnic groups. No to the name change. The same as the previous

6. DO NOT CHANGE
7. Another stupid idea from WOKE black communists. Don't waste taxpayer money. We had to work hard and you only take our money to tax us every year. Someone said you would spend over \$ 4 million on this project! Taxpayers have the right to decide what we want and we do not want names to be changed.
8. Don't waste taxpayer money (over 4 million!) Taxpayers have the right to decide what we want and we don't want names changed.
9. Stop wasting our taxpayers' money, you idiots. Return the money to the taxpayers. The few black snowflakes may take a different route and furthermore, blacks should keep their eyes on the road and not on signs they perceive as disruptive, because blacks drive like assholes anyway and are often high and create situations driving dangerous for others. No to name changes!
10. Stop this nonsense as Spaniards have Spanish names on the roads too and not just the black privileges lazy parasites want. Stop wasting our taxpayers' money, you idiots. Give the money back to the taxpayers!
11. History cannot be erased. What would have happened if the confederates won?
12. Virginia's history is part of its culture and should not be destroyed for any reason. The Confederates were the last defenders of the millenary institution of slavery, an institution that no longer exists thanks to the civil war in the United States, and is not legitimate anywhere in the world.
13. I do not think.
14. A name should not be given so much importance.
15. It is completely appropriate and necessary to change the name of Route 29. My son and daughters ask why it is called Lee Highway and what does that name mean which is very difficult to explain due to its relation to slavery. This is an excellent opportunity to make a positive change and give it a name that honors everyone in Fairfax County and Virginia.
16. You should not change the name of Route 29.
17. I came to this country for the ideal of freedom and I am encountering many of the same "false" problems that were used to divide my compatriots emerging here. This is very dangerous because it doesn't end well. There are many people whose names are Lee, Jackson, or Jackson-Lee, one of them is a well-known representative from Texas, another is Jesse Jackson, and many others. Why do we spend so many resources on this made-up problem when we are faced with real challenges? If those whose ancestors were slaves have not changed their names, why should we dedicate this effort to this change when most don't even know and frankly don't care who Lee or Jackson were? This is a very divisive company that will not unite but will divide. I respect and admire Martin Luther King, but not everyone does, many accuse him of being a communist, etc. So because those Americans are offended, should we eliminate MLK? Of course, no.
18. It does not have to be changed since it is a historical name.
19. I see no reason to change the name except the politics that permeates these times and the leftist agenda to erase history.
20. America is what it is because of its history. It cannot be changed, nor should it be.
21. Should not change
22. It is ridiculous to waste money on such absurd changes. That is the history of our country. Establish a committee for this use the money for important things.

23. It is a real shame to live in a county where you have streets honoring political leaders from your racist past. And worst of all, our current politicians need to "consult the public" before changing these names. Change them now.
24. What a waste of money this survey and all this effort. Don't they have better things to do?
25. Names should not be changed
26. The name is part of the story. We cannot erase history. In my opinion, it is not something that offends anyone.
27. Don't change the names of our streets!
28. The name should not be changed.
29. I understand that it may be uncomfortable for some, but my personal opinion should keep the story so that it does not forget those moments in which there has been a change.
30. Please fix the roads instead of spending money on this
31. Don't spend the money on this. Better fix the roads that are badly broken in many places
32. Do not change the names.

With economy taking a dump, inflation rating out of control, we the taxpayers need to save every penny. Give us our money back instead of wasting 4 million dollars. Just no!!!
9. I believe that we must teach the next generation that history is one and we must accept it as it was.
10. Stop wasting our money laundering our history
11. Stop wasting our money laundering our history. According to the video from the November 8 meeting, this task force is heavily skewed towards representation of primarily black residents (at least half!) 16. STOP WASTING TAX LIST MONEY
17. Dont change the names
18. I don't have an issue with the name
19. Don't waste taxpayer money (over 4 million!). Give the money back to the taxpayers! Let the black snowflakes pay with their own money for wasteful projects, not with taxpayer money. We, the tax-paying citizens, have the right to decide what is right, not you! You have no skin on this, so put this on a ballot. And tell people in advance how much it is going to cost. Give people the power to decide how they want to spend their taxes.
20. Stop wasting our taxpayers' money, you idiots. Return the money to the taxpayers. The few black snowflakes may take a different route and furthermore, blacks should keep their eyes on the road and not on signs they perceive as disruptive, because blacks drive like assholes anyway and are often high and create situations driving dangerous for others. No to name changes!

23. We would uphold our values and so we would teach it to our children. Instead of each time an "enlightened" appears, we have to change everything to satisfy the needs of lack of personal self-esteem.
24. In no way would it shock us; on the contrary, changing the names indicates a lack of knowledge of history and culture, to promote mistaken Marxist and racist ideologies, which only divide.
25. i don't think
26. I think it's better to hold that name because this people fought for what they thought was right at that time, they were protecting their families. We need to maintain the history of the peoples, the good and the bad. Humans can eradicate their history, we need to study and remember it in order of not repeat it.
27. We need positive examples for both our homes and our businesses. The current name continues the prejudices against our African-American communities.
28. It is a very well known name
29. I am used to it
30. It doesn't affect me in any way
31. No money would be wasted on changing the signs on the avenue.
32. It simply pays the social order to maintain the same name, which is widely known.
33. Work for what matters.
34. For changing the signs alone, 171 signs on Lee Highway and 55 signs on Lee-Jackson Memorial Highway, the cost could range from \$1 to \$4.2 million. This does not include the in-house costs for changing maps, GPS, etc. Add another million wasted on changing our credit cards addresses and all other data points. Absolutely NO to road names changes!!!! DONT YOU DARE waste our money!

35. I don't see why it should be changed
36. It would not affect me at all. This project is unnecessary. If this is what you think it is important to change the name of a route, I cannot imagine how you waste time on other meaningless projects
37. It is honor to racism. And he sets a bad example for the youth and generations to come.
38. It would seem good to continue recognizing all the history or tradition of this country that I love.

With economy taking a dump, inflation rating out of control, we the taxpayers need to save every penny. Give us our money back instead of wasting 4 million dollars. Just no!!!
6. No way. History cannot and should not be changed. Those is totalitarianism
7. so many changes have a negative effect on American culture and the preservation of history

24. Changing would mean removing other names for religious, gender or hate motives
25. Very negatively, we are not the lambs of the new "enlightened" that now flood our community. DON'T DO IT !!!!
26. It would be a surrender of historical truths and cultural values of equality between the races. The names of the Confederate soldiers and their defeat represents the change to the new society of equality among men, despite their different races, and above all the end of the millenary institution of slavery. Both advances are the foundation of modern society. The opposite is regressive and dysfunctional.
27. i don't think

22. What is the reason for so much expense to change your name
23. I came to this country for the ideal of freedom and I am encountering many of the same "false" problems that were used to divide my compatriots emerging here. This is very dangerous because it doesn't end well. There are many people whose names are Lee, Jackson, or Jackson-Lee, one of them is a well-known representative from Texas, another is Jesse Jackson, and many others. Why do we spend so many resources on this made-up problem when we are faced with real challenges? If those whose ancestors were slaves have not changed their names, why should we dedicate this effort to this change when most don't even know and frankly don't care who Lee or Jackson were? This is a very divisive company that will not unite but will divide. I respect and admire Martin Luther King, but not everyone does, many accuse him of being a communist, etc. So because those Americans are offended, should we eliminate MLK? Of course, no.
24. Don't do it. It is a waste of time and money.
25. IT MUST NOT BE CHANGED! There is no reason for this. Erasing history and our ancestors does not serve the education and honor of all our present.
26. Never mind
27. Once again, the effort, time and money that they dedicate to this project is proof of the waste and poor management of the government and its priorities. Incredible at what they waste their time
