

# Existing Service Plus: Level of Service

When will the bus run, and how often will it come? A bus route's level of service summarizes this information. The graphics below show the hours during which buses would operate. Using the legend to the right, you can see the time between buses during each service period. **Existing Service Plus** features several routes that operate frequent service during the busiest morning and afternoon times to key employment and transfer destinations such as Metrorail stations. Other routes run all day long.
